How this document is built

1. **Part Zero** — the ABC: the words of the topic and the Muslim world in numbers.
2. **Part One** — eleven chapters; in every point the evidence comes **Quran → Hadith → history → scholars and data**.
3. **At-a-glance charts** after long sections — the names only.
4. **Part Two** — contemporary challenges and hot debates.
5. **Part Three** — the examiner's record and five likely questions.
6. **Part Four** — the numbered one-liner bank.
7. **Part Five** — section-by-section revision notes.

EXAMINER'S EYE · THIS TOPIC IN THE PAPER

This is the **most current-affairs-driven topic** of the paper. The examiner wants **analysis with facts**: dates, organisations, resolutions, numbers — and a balanced tone. Two patterns stand out: **Islam and the West** (2015, 2025, 2026) and **Pakistan's own identity and society** (2022, 2026). The first half of the syllabus line — **Islam's impact on the West** — has never been asked and is due.

TRAP · FACTS, NOT FEELINGS

On Palestine, Kashmir, Indian Muslims and Islamophobia, write **firmly but factually**: dates, UN resolutions, court judgments, laws, reports. Avoid abusive words about any country, religion or people. A calm, evidence-based answer is the one that scores.

Chapter 1 · The Impact of Islamic Civilization on the West

The first half of the syllabus line — **never asked**, and therefore due.

1.1 The background — Europe's 'Dark Ages' and the Muslim golden age

From the 8th to the 13th century, while much of Europe was in its early medieval period, the Muslim world from **Cordoba** to **Baghdad** and **Samarkand** was the leading centre of science, philosophy and learning. Muslims **preserved, translated, corrected and advanced** the knowledge of Greece, Persia and India, and then passed it to Europe.

✦ QURAN

﴿أَقْرَأْ بِاسْمِ رَبِّكَ الَّذِي خَلَقَ ﴿۱﴾ خَلَقَ الْإِنْسَانَ مِنْ عَلَقٍ ﴿۲﴾ أَقْرَأْ وَرَبُّكَ الْأَكْرَمُ ﴿۳﴾ الَّذِي عَلَّمَ بِالْقَلَمِ ﴿۴﴾ عَلَّمَ الْإِنْسَانَ مَا لَمْ يَعْلَمْ ﴿۵﴾﴾

"Recite in the name of your Lord who created. Created man from a clinging substance. Recite, and your Lord is the most Generous. Who taught by the pen. Taught man that which he knew not." (Al-Alaq, Quran)

→ 'Read in the name of your Lord ... **who taught by the pen, taught man what he did not know**' — a civilization founded on a command to read.

✦ HADITH

طَلَبُ الْعِلْمِ فَرِيضَةٌ عَلَى كُلِّ مُسْلِمٍ

"Seeking knowledge is an obligation upon every Muslim." (Ibn Majah)

→ Knowledge as **worship** produced a scientific culture.

1.2 The channels of transmission

HOW ISLAMIC LEARNING REACHED EUROPE — four channels

What passed: numerals and algebra · medicine (Ibn Sina, al-Razi, al-Zahrawi) · optics (Ibn al-Haytham) · astronomy · Aristotle via Ibn Rushd · paper

Figure 2 · How Islamic learning reached Europe: four channels.

(1) Spain (Al-Andalus, 711–1492)

- **Cordoba** under the Umayyad Caliphate (929–1031) was the largest and most learned city of Western Europe — paved and lit streets, public baths, a library of about **400,000** volumes.
- After Christians took **Toledo** (1085), it became a centre of translation from Arabic into Latin; **Gerard of Cremona** (d. 1187) alone translated some **eighty-seven** works, including Ibn Sina's *Canon* and Ptolemy's *Almagest* from Arabic.
- European students — among them **Gerbert of Aurillac**, later Pope Sylvester II (d. 1003) — learnt Arabic mathematics in Spain.

(2) Sicily and southern Italy

Under the Norman king **Roger II** (d. 1154), Muslim scholars worked at the court of Palermo; **Al-Idrisi** made for him the famous world map and geography (*Tabula Rogeriana*, 1154). **Frederick II** (d. 1250) continued this patronage.

(3) The Crusades (1095–1291)

Two centuries of contact brought Europeans into Muslim cities; they returned with new foods, textiles, techniques, and admiration — as well as enmity.

(4) Trade

Italian ports — **Venice, Genoa, Pisa** — traded with Muslim lands and brought back **paper, sugar, spices, textiles**, and the **Arabic numerals** used by Muslim merchants. **Fibonacci's** *Liber Abaci* (1202), which introduced these numerals to Europe, was written after he studied with Muslim teachers in North Africa.

1.2a Al-Andalus in close-up — the bridge to Europe

- **711** — Tariq ibn Ziyad crossed to Spain (the Rock of Gibraltar — *Jabal Tariq* — bears his name).

- **756** — Abd al-Rahman I founded the Umayyad state of Cordoba; the **Great Mosque of Cordoba** was begun in **785**.
- **929** — Abd al-Rahman III declared the Caliphate of Cordoba; the palace-city **Madinat al-Zahra** was built.
- **Cordoba** at its height had hundreds of mosques, public baths, paved and lit streets, and the library of **Al-Hakam II** (about 400,000 volumes) — when most European libraries held a few hundred books.
- **Science and art: Abbas ibn Firnas** (d. 887) attempted a glider flight; the musician **Ziryab** brought new music, cuisine and fashion from Baghdad; **Al-Zahrawi** practised surgery; **Ibn Rushd** and **Ibn Tufayl** wrote philosophy.
- **The Alhambra** of Granada (13th–14th c.) remains one of the world's great buildings.
- **1492** — Granada fell; Muslims and Jews were later expelled or forcibly converted; but the books, techniques and words of Al-Andalus stayed in Europe.

✦ SCHOLARLY VIEW

Stanley Lane-Poole · The Moors in Spain (1886)

Lane-Poole wrote that for nearly eight centuries under Muslim rulers Spain set to all Europe a shining example of a civilized and enlightened state, and that its arts, literature and science prospered as they then prospered nowhere else in Europe.

→ A Victorian historian's **tribute**.

1.3 The impact on science and mathematics

(1) Numerals, zero and algebra

- The **Hindu-Arabic numerals** and **zero** (*sifr*, from which 'cipher' and 'zero') reached Europe through Muslim mathematicians.
- **Al-Khwarizmi** (d. c. 850) wrote *Al-Kitab al-Mukhtasar fi Hisab al-Jabr wa al-Muqabalah* — from which the word **algebra**; his name gave the word **algorithm**. **Robert of Chester** translated it into Latin in **1145**.
- **Omar Khayyam** solved cubic equations geometrically; **Al-Tusi** advanced trigonometry.

(2) Astronomy

Al-Battani refined the length of the solar year; **Al-Zarqali** made the Toledan Tables; **Nasir al-Din al-Tusi** designed the 'Tusi couple', a mathematical device later found in **Copernicus's** work; the **astrolabe** and many star names (**Aldebaran**, **Altair**, **Betelgeuse**) and terms (**zenith**, **nadir**, **azimuth**) are Arabic.

(3) Optics and scientific method

Ibn al-Haytham (d. c. 1040), in *Kitab al-Manazir* (Book of Optics), showed that we see because light enters the eye, explained the **camera obscura**, and insisted on **testing ideas by experiment**. His Latin translation influenced **Roger Bacon**, **Witelo** and **Kepler**.

(4) Chemistry

Jabir ibn Hayyan developed distillation, crystallisation and the classification of substances; the words **alchemy**, **alcohol**, **alkali**, **elixir** are Arabic.

(5) Geography and travel

Al-Idrisi's map, **Al-Biruni's** measurement of the earth's radius, and **Ibn Battuta's** *Rihlah* expanded Europe's picture of the world.

1.4 The impact on medicine

- **Ibn Sina** (Avicenna, d. 1037) — *Al-Qanun fi al-Tibb* (The Canon of Medicine) was a standard textbook in European universities such as **Montpellier** and **Louvain** into the 17th century.
- **Al-Razi** (Rhazes, d. c. 925) — the first clear distinction between **smallpox and measles**; *Al-Hawi*, a vast medical encyclopedia.
- **Al-Zahrawi** (Abulcasis, d. 1013), of Cordoba — *Al-Tasrif*, with drawings of some **200 surgical instruments**; used in Europe for centuries.
- **Ibn al-Nafis** (d. 1288) described the **pulmonary circulation** of blood, three centuries before William Harvey.
- **Hospitals (bimaristans)** with wards, pharmacies and teaching — models for later European hospitals.

1.5 The impact on philosophy and thought

- **Ibn Rushd** (Averroes, d. 1198) of Cordoba wrote commentaries on Aristotle so complete that Europe called him simply '**The Commentator**'. 'Latin Averroism' became a movement at the University of Paris.
- **Ibn Sina** and **Al-Farabi** shaped European scholastic philosophy; **St Thomas Aquinas** engaged with Ibn Sina and Ibn Rushd.
- **Al-Ghazali** (Algazel) was read in Latin; his critique of causality anticipated later debates.
- Through these commentaries, Europe recovered **Aristotle** — a key step towards the Renaissance.

1.6 The impact on education and institutions

- **Universities: Al-Qarawiyyin** (Fez, 859) and **Al-Azhar** (Cairo, 970) are older than **Bologna** (1088) and **Oxford** (c. 1096).
- The Muslim **ijazah** (licence to teach) and the tradition of the **disputation** are often compared with the European *licentia docendi* and scholastic debate.
- **Libraries and paper**: the first paper mill in Europe was set up in Muslim Spain (Xàtiva, 12th century); paper made printing possible.

1.7 The impact on daily life, economy and language

- **Agriculture**: rice, sugar-cane, cotton, citrus fruits, spinach and aubergine; irrigation wheels (*noria*) and water management.
- **Commerce**: the words **tariff** (*ta'rif*), **cheque** (*sakk*), **magazine** (*makhazin*), **arsenal** (*dar al-sina'ah*), **admiral** (*amir al-bahr*).
- **Culture**: the **lute** (*al-'ud*), chess terms ('checkmate' — *shah mat*), coffee, sofa, hygiene and public baths.
- **Architecture**: the pointed and horseshoe arches, courtyards and geometric decoration of Spain and Sicily.

1.7a Why Islamic civilization could lead — the reasons

- **(a) A religious command to seek knowledge** — the first revelation was 'Read!'; the Prophet ﷺ freed the prisoners of Badr for teaching (Topic 3).
- **(b) Openness to other peoples' learning** — Greek, Persian and Indian works were translated, not burnt; 'follow the best of it' (Az-Zumar 18).
- **(c) Patronage** — Caliphs such as **Al-Ma'mun** (d. 833) funded the **Bayt al-Hikmah** in Baghdad and paid translators generously.
- **(d) Paper** — learnt from Chinese prisoners after the Battle of Talas (751); the Baghdad paper mill (c. 794) made books cheap.
- **(e) One language of learning** — Arabic, from Spain to Central Asia, let knowledge move freely.
- **(f) Waqf** — endowments funded madrasas, libraries, observatories and hospitals independently of rulers.
- **(g) Religious needs** — the qiblah, prayer times, the calendar, Zakat and inheritance demanded astronomy, geography and mathematics.

✦ QURAN

﴿إِنَّ فِي خَلْقِ السَّمُوتِ وَالْأَرْضِ وَاخْتِلَافِ اللَّيْلِ وَالنَّهَارِ لَآيَاتٍ لِّأُولِي الْأَلْبَابِ ۚ الَّذِينَ يَذْكُرُونَ اللَّهَ قِيَمًا وَقُعُودًا وَعَلَىٰ جُنُوبِهِمْ وَيَتَفَكَّرُونَ فِي خَلْقِ السَّمُوتِ وَالْأَرْضِ رَبَّنَا مَا خَلَقْتَ هَذَا بَطْلًا سُبْحَنَكَ فَقِنَا عَذَابَ النَّارِ﴾

"Indeed, in the creation of the heavens and the earth and the alternation of the night and the day are signs for those of understanding. Who remember Allah while standing or sitting or [lying] on their sides and give thought to the creation of the heavens and the earth, [saying], "Our Lord, You did not create this aimlessly; exalted are You [above such a thing]; then protect us from the punishment of the Fire." (Aal-e-Imran, Quran)

➔ In the creation of the heavens and the earth are signs for people of understanding, **who remember Allah and reflect on the creation of the heavens and the earth** — science as worship.

1.7b The honest limits

Muslim science did not continue its lead after about the 15th century: the gate of **ijtihad** was treated as closed, observatories were abandoned (Istanbul, 1580), printing came late to the Ottoman world, and wealth and trade routes shifted to the Atlantic. Europe built on Muslim foundations while the Muslim world stood still — the lesson for today (Chapter 6).

1.8 What Western scholars say

✦ SCHOLARLY VIEW

Robert Briffault · The Making of Humanity (1919)

"Science is the most momentous contribution of Arab civilization to the modern world."

➔ Modern science was **born from Muslim learning**.

✦ SCHOLARLY VIEW

George Sarton · Introduction to the History of Science

Sarton, the founder of the history of science as a discipline, named whole periods of his history after Muslim scientists — the ages of Jabir, Al-Khwarizmi, Al-Razi, Al-Biruni and others — showing that for about four centuries the leading work in science was done in Arabic.

→ The **leadership** of Muslim science.

✦ SCHOLARLY VIEW

King Charles III (then Prince of Wales) · Speech 'Islam and the West', Oxford, 27 October 1993

"If there is much misunderstanding in the West about the nature of Islam, there is also much ignorance about the debt our own culture and civilisation owe to the Islamic world."

→ A Western head of state's **acknowledgement of the debt**.

✦ SCHOLARLY VIEW

Allama Muhammad Iqbal · The Reconstruction of Religious Thought in Islam, Lectures V and VI

Iqbal argued that the experimental spirit of modern Europe was born in Islamic culture, and that European culture, on its intellectual side, is only a further development of some of the most important phases of the culture of Islam.

→ Iqbal's **thesis** of continuity.

EXAMINER'S EYE · IF THIS IS ASKED

Build it as: **(1)** background and the Quranic command to learn; **(2)** channels (with the figure); **(3)** fields — science, medicine, philosophy, education, daily life (the table); **(4)** Western testimony; **(5)** conclusion — Muslims were teachers then, learners now; the lesson for revival.

Chapter 2 · The Impact of the West on the Muslim World

Asked in **2026**: 'Explain how Western civilization has influenced Islamic civilization. Discuss the measures to protect Muslim societies from the negative impacts of Western culture.'

2.1 How the relationship reversed

The Muslims who once taught Europe fell behind it after the 16th century. Europe's **Renaissance**, **Scientific Revolution**, **Industrial Revolution** and colonial expansion made the West the dominant civilization, and the Muslim world came under its **political, economic and cultural** influence.

✦ QURAN

﴿إِنْ يَمَسُّكُمْ قَرْحٌ فَقَدْ مَسَّ الْقَوْمَ قَرْحٌ مِّثْلُهُ وَتِلْكَ الْأَيَّامُ نُدَاوِلُهَا بَيْنَ النَّاسِ وَلِيَعْلَمَ اللَّهُ الَّذِينَ آمَنُوا وَيَتَّخِذَ مِنْكُمْ شُهَدَاءَ وَاللَّهُ لَا يُحِبُّ الظَّالِمِينَ﴾

"If a wound should touch you - there has already touched the [opposing] people a wound similar to it. And these days [of varying conditions] We alternate among the people so that Allah may make evident those who believe and [may] take to Himself from among you martyrs - and Allah does not like the wrongdoers." (**Aal-e-Imran, Quran**)

→ 'These days (of fortune) We alternate among the people' — power passes between nations according to their conduct.

✦ QURAN

﴿...إِنَّ اللَّهَ لَا يُغَيِّرُ مَا بِقَوْمٍ حَتَّى يُغَيِّرُوا مَا بِأَنْفُسِهِمْ...﴾

"Indeed, Allah will not change the condition of a people until they change what is in themselves." (**Ar-Ra'd, Quran**)

→ Allah does not change the condition of a people **until they change what is in themselves**.

2.2 The phases of Western influence

Phase	Period	Key events
Colonial conquest	1757–1920	Plassey (1757); Napoleon in Egypt (1798); France in Algeria (1830); end of the Mughals (1857); Britain in Egypt (1882)
Collapse of the Ottoman order	1914–1924	Sykes–Picot (1916); Balfour Declaration (1917); abolition of the Caliphate (1924)
Post-colonial states	1945–1990	Independence of most Muslim states; Western-style constitutions, armies, bureaucracies; Cold War alliances
Globalisation and the digital age	1990 onwards	Global markets, IMF and World Bank programmes, satellite TV, internet, social media

2.3 The positive influences

(1) Modern science and technology

Medicine, engineering, electricity, transport, communication and computing came to the Muslim world largely through the West.

(2) Modern education

Universities, laboratories and new disciplines. **Sir Syed Ahmad Khan** founded the **Muhammadan Anglo-Oriental College, Aligarh (1875)** to combine modern learning with Muslim identity.

(3) Political and administrative systems

Constitutions, parliaments, written law codes, a rule-based civil service, and the idea of fundamental rights.

(4) Awareness and reform

Printing, newspapers and contact with new ideas awakened Muslim thinkers — **Jamal al-Din al-Afghani**, **Muhammad Abduh**, **Sir Syed**, **Allama Iqbal** — to call for reform and revival.

(5) Social change

Wider education for women, public health, and awareness of human rights.

✦ QURAN

﴿الَّذِينَ يَسْتَمِعُونَ الْقَوْلَ فَيَتَّبِعُونَ أَحْسَنَهُ ۚ أُولَٰئِكَ الَّذِينَ هَدَىٰ اللَّهُ ۖ وَوَلَّيْنَاكَ هُمْ أُولُوا الْأَلْبَابِ﴾

"Who listen to speech and follow the best of it. Those are the ones Allah has guided, and those are people of understanding." (Az-Zumar, Quran)

→ 'Those who listen to speech and follow the best of it — those are the ones Allah has guided.'

2.4 The negative influences

(1) Political

- **Colonial exploitation** and **artificial borders** that still cause conflict (the Middle East after Sykes-Picot; Kashmir after 1947).
- **Dependence** — military, economic and technological — on Western powers after independence.

(2) Economic

- **An interest-based economy** and heavy **debt** to international lenders.
- Consumerism and imitation of Western lifestyles beyond people's means.

✦ QURAN

﴿... وَأَحَلَّ اللَّهُ الْبَيْعَ وَحَرَّمَ الرِّبَا ...﴾

"Allah has permitted trade and forbidden riba (interest)." (Al-Baqarah, Quran)

→ 'Allah has permitted trade and forbidden riba.'

(3) Ideological

- **Secularism** — separating religion from public life.
- **Materialism** — measuring success only by wealth and comfort.
- **Moral relativism** — no fixed right or wrong.

(4) Cultural and social

- **Individualism and weakening of the family**; permissiveness in media and fashion.
- **Inferiority complex** — admiration of everything Western and contempt for one's own heritage.
- **Language** — English as the language of the elite; neglect of Urdu and regional languages (Article 251 of Pakistan's Constitution makes Urdu the national language).

(5) Intellectual

- **Orientalism** — Western scholarship that often portrayed Islam as backward.

✦ SCHOLARLY VIEW

Edward Said · Orientalism (1978)

Said showed that much Western writing about the East created a stereotype of the 'Oriental' as irrational and backward, which served colonial power.

→ The **critique of Orientalism**.

- **Dual education** — modern schools without religion and madrasas without modern sciences, producing two classes who cannot understand each other.

Figure 4 · The influence of the West: gains to accept and losses to resist.

2.4a The Muslim responses in history

Response	Date	What it did
Deoband (Dar al-Ulum)	1866	Preserved religious learning and identity after 1857
Aligarh (M.A.O. College)	1875	Modern Western education for Muslims with loyalty to Islam

Response	Date	What it did
Nadwat al-Ulama, Lucknow	1894	A bridge: religious learning with modern subjects and languages
Anjuman-e-Himayat-e-Islam, Lahore	1884	Schools and colleges for Muslim boys and girls; Iqbal recited poems at its gatherings
Al-Azhar reforms (Muhammad Abduh)	1890s	Modern subjects and methods in the oldest Muslim university

Each was a different answer to the same Western challenge — together they preserved faith **and** opened the door to modern knowledge.

2.4b Western influence in Pakistan today — the visible signs

- **Education:** English-medium elite schools with foreign curricula beside under-funded government schools and madrasas — three tracks producing three mindsets.
- **Media:** foreign content dominates the screens of the young; tens of millions of Pakistanis use social media daily.
- **Lifestyle:** fast food, brand culture, lavish weddings borrowed from films, Western fashion as a status symbol.
- **Language:** English as the language of power; weak command of Urdu and Arabic among the educated elite.
- **Economy:** dependence on IMF programmes; an interest-based banking system (though Islamic banking now holds about a fifth of the sector's assets).
- **Values:** growing individualism, delayed marriage, weaker respect for elders — and, on the positive side, greater awareness of rights, girls' education and merit.

2.4c Globalisation — the newest face of Western influence

Globalisation — the free movement of goods, money, information and people across borders — spreads a single consumer culture led by Western corporations and media.

- **Opportunities:** trade, remittances (Pakistan received over **30 billion dollars** in 2023–24), access to knowledge, global Muslim networks, the spread of Islamic finance and halal markets.
- **Threats:** cultural uniformity; loss of local industries; dependence on foreign technology platforms; values shaped by algorithms.
- **Islamic response:** participate with identity — 'know one another' (Al-Hujurat 13) — trade honestly, protect the weak, and use global media to present Islam.

2.5 The measures to protect Muslim societies

(1) The principle — selective acceptance

★ HADITH

الْكَلِمَةُ الْحَكِيمَةُ ضَالَّةُ الْمُؤْمِنِ، فَيُحِثُّ وَجَدَهَا فَهُوَ أَحَقُّ بِهَا

"A word of wisdom is the lost property of the believer; wherever he finds it, he has the best right to it." (Al-Tirmidhi)

→ Take **science and good systems** from anywhere — the report is widely quoted, though its chain is weak; its meaning agrees with Az-Zumar 18.

✦ SCHOLARLY VIEW

Allama Muhammad Iqbal · Preface to The Reconstruction of Religious Thought in Islam

Iqbal wrote that the only course open to Muslims is to approach modern knowledge with a respectful but independent attitude, and to appreciate the teachings of Islam in its light, even though this may lead to differences with earlier thinkers.

→ **Respectful but independent** — the model attitude.

(2) Education

- Integrate Islamic and modern education — end the two-track system.
- Teach **Islamic history and civilization** so that youth know their heritage.
- Promote **critical thinking** — to judge ideas, not copy them.

(3) The family

Strengthen marriage, parenting and the elderly's place at home — the family is the first defence of culture (Topic 4).

(4) Media and the digital space

- Produce attractive content in Urdu and regional languages rooted in Islamic values.
- Regulate harmful content (PEMRA; PECA 2016) without suppressing free speech.
- Digital literacy for parents and children.

(5) Language and identity

Promote Urdu and regional languages in education and administration (Article 251); Arabic for understanding the Quran.

(6) Economic independence

- Move towards a **riba-free economy** (the Federal Shariat Court's 2022 judgment; target **1 January 2028** under the 26th Amendment).
- Reduce debt; promote local industry and trade among Muslim countries.

(7) Science and technology

Invest in research, universities and innovation — to be producers, not only consumers, of technology.

(8) Role of scholars and leaders

Ulema who understand the modern world; leaders who live by Islamic values; mosques as centres of guidance for youth.

(9) Cooperation among Muslim states

OIC and ICESCO programmes for culture, education and media.

✦ QURAN

﴿وَلْتَكُنْ مِنْكُمْ أُمَّةٌ يَدْعُونَ إِلَى الْخَيْرِ وَيَأْمُرُونَ بِالْمَعْرُوفِ وَيَنْهَوْنَ عَنِ الْمُنْكَرِ وَأُولَٰئِكَ هُمُ الْمُفْلِحُونَ﴾

“And let there be [arising] from you a nation inviting to [all that is] good, enjoining what is right and forbidding what is wrong, and those will be the successful.” (Aal-e-Imran, Quran)

→ 'Let there be among you a group inviting to good, enjoining right and forbidding wrong' — organised effort to protect society.

Chapter 3 · Muslim Views of Western Civilization

Asked in 2025: 'What views are found in today's Muslim circles about Western Civilization? Identify and analyze them.'

3.1 Why Muslims disagree about the West

The West is at once the **source of modern science and freedoms** and the **former coloniser** and present bearer of secular, permissive values. Muslims therefore respond to it in several ways.

The balanced view: 'Wisdom is the lost property of the believer' — take it wherever found; reject what contradicts revelation.

Figure 6 · Muslim views of Western civilization — from rejection to imitation, with synthesis at the centre.

3.2 View 1 — Total rejection (the defensive-traditional view)

(1) The view

Western civilization is **corrupt and hostile**; Muslims must reject its education, systems and culture, and return to the past.

(2) Its roots

The shock of colonialism; after 1857 some Muslims refused English education and government service; today, some voices reject all Western ideas, including democracy and science education for women.

(3) Analysis

- **Strength:** protects identity and values; rightly exposes Western moral problems.
- **Weakness:** isolates Muslims from science and progress; contradicts 'follow the best' (Az-Zumar 18) and the Muslim tradition of learning from Greece, Persia and India. It left Indian Muslims behind the Hindus in education in the 19th century — the problem Sir Syed set out to solve.

3.3 View 2 — Total acceptance (the Westernising view)

(1) The view

Muslims can progress only by **copying the West completely** — its law, dress, values and secular state.

(2) Its advocates

- **Mustafa Kemal Atatürk** — abolished the Caliphate (1924), replaced the Arabic script with the Latin (1928), banned the fez, and imposed secularism in Turkey.
- **Taha Husayn** (Egypt) — in *The Future of Culture in Egypt* (1938) argued that Egypt should follow Europe's path in civilization.

(3) Analysis

- **Strength:** openness to science, education and modern administration.
- **Weakness:** loss of identity; a split between an elite and the believing masses; imitation did not bring equal power or progress. **Iqbal** warned against borrowing only the outer glitter of Europe.

3.4 View 3 — Synthesis (the reformist view)

(1) The view

Take from the West its **science, technology and good systems**; keep Islam's **beliefs, values and law**; reinterpret Islamic principles through **ijtihad**.

(2) Its advocates

- **Sir Syed Ahmad Khan** — Aligarh (1875): modern education with Muslim identity.
- **Jamal al-Din al-Afghani** and **Muhammad Abduh** — revival through reason and unity.
- **Allama Iqbal** — 'a respectful but independent attitude' to modern knowledge; *The Reconstruction of Religious Thought in Islam* (1930).

✦ SCHOLARLY VIEW

Allama Muhammad Iqbal · Bal-e-Jibril

'Khira na kar saka mujhe jalwa-e-danish-e-farang / Surma hai meri aankh ka khak-e-Madina-o-Najaf' — the glitter of Western learning could not dazzle me, for the dust of Madinah and Najaf is the collyrium of my eyes.

→ Learning from the West **without being blinded** by it.

(3) Analysis

- **Strength:** balanced; faithful to the Islamic tradition of learning; practical for development.
- **Weakness:** the line between 'science' and 'values' is not always easy to draw; needs strong scholars and institutions.

3.5 View 4 — Critical engagement (the civilizational critique)

(1) The view

The West must be studied deeply and **criticised on its own ground** — its materialism, environmental destruction and spiritual emptiness — while Islam offers an alternative civilization.

(2) Its advocates

- **Muhammad Asad** (Leopold Weiss, an Austrian convert and later a Pakistani diplomat) — *Islam at the Crossroads* (1934): Muslims should take Western science but not imitate its culture.
- **Seyyed Hossein Nasr** — *Man and Nature* (1968): the modern environmental crisis comes from a science cut off from the sacred.
- **Iqbal** in his poetry on the materialism of Europe.

(3) Analysis

- **Strength:** intellectual depth; offers Islam as a positive alternative.
- **Weakness:** can remain theoretical unless joined to practical reform.

3.6 View 5 — Dialogue and co-existence

(1) The view

Islam and the West share much (monotheistic roots, human dignity, justice); they should **cooperate** against common problems — poverty, war, climate change — and resolve differences through dialogue.

(2) Examples

The **Amman Message** (2004); **A Common Word Between Us and You** (2007), signed by 138 Muslim scholars, based on love of God and neighbour; the **Document on Human Fraternity** (Abu Dhabi, 2019).

✦ QURAN

﴿قُلْ يَٰٓأَهْلَ ٱلْكِتَٰبِ تَعَالَوْا۟ إِلَىٰ كَلِمَةٍ سَوَآءٍ بَيْنَنَا وَبَيْنَكُمْ أَلَّا نَعْبُدَ إِلَّا ٱللَّهَ وَلَا نُشْرِكَ بِهِۦ شَيْئًا وَلَا يَتَّخِذَ بَعْضُنَا بَعْضًا أَرْبَابًا مِّن دُونِ ٱللَّهِ...﴾

“Say: O People of the Scripture, come to a word common between us and you: that we worship none but Allah, associate nothing with Him, and that none of us take others as lords besides Allah.” (Aal-e-Imran, Quran)

→ 'Come to a word common between us and you.'

(3) Analysis

- **Strength:** reduces conflict and Islamophobia; Quranic in method.
- **Weakness:** can be ignored by those in power; dialogue without justice (Palestine, Kashmir) loses credibility.

3.7 View 6 — The conspiracy view

(1) The view

Every Muslim problem is caused by a **Western conspiracy**.

(2) Analysis

- **Partial truth:** colonialism, wars and double standards are real.
- **Weakness:** it breeds passivity and blames others for our own failures — against Ar-Ra'd 11 ('until they change what is in themselves').

3.8 The comparative analysis

View	Advocates	Strength	Weakness
Rejection	Post-1857 conservatives; some today	Protects identity	Backwardness; isolation
Westernisation	Atatürk; Taha Husayn	Openness to science	Loss of identity; elite–mass split
Synthesis	Sir Syed; Afghani; Abduh; Iqbal	Balanced; practical	Hard line between science and values
Critical engagement	Muhammad Asad; S. H. Nasr	Depth; an alternative	Can stay theoretical
Dialogue	Amman Message; A Common Word	Peace; understanding	Ignored without justice
Conspiracy	Popular opinion	Sees real injustice	Passivity; blame-shifting

3.8a The views in Pakistan today

In Pakistani society all six views can be heard: a small **Westernised elite** that looks down on religion; **conservative voices** that reject almost everything Western; a large **middle class** that wants Western education and technology with Islamic values (**synthesis**); and a strong **conspiracy** discourse in popular media. The Constitution itself reflects the synthesis — a parliamentary democracy and fundamental rights (Western forms) under the sovereignty of Allah and Article 227 (Islamic content).

3.9 The balanced Islamic position

✦ QURAN

﴿وَكَذَلِكَ جَعَلْنَاكُمْ أُمَّةً وَسَطًا لِتَكُونُوا شُهَدَاءَ عَلَى النَّاسِ وَيَكُونَ الرَّسُولُ عَلَيْكُمْ شَهِيدًا...﴾

“And thus We have made you a middle (just) nation, that you may be witnesses over mankind and the Messenger a witness over you.” (Al-Baqarah, Quran)

→ ‘We have made you a middle nation’ — neither blind rejection nor blind imitation.

Take the **science, technology, administration and rights** that are good; reject **secularism, materialism, permissiveness and riba**; engage in **dialogue**; and, above all, **reform ourselves** so that Muslims once again contribute to world civilization.

Muslim views of the West — the names only		
Extremes	Centre	Verdict
rejection (post-1857)	synthesis (Sir Syed 1875, Afghani, Abduh, Iqbal 1930)	middle nation
Westernisation (Atatürk 1924, 1928)	critical engagement (Asad 1934, Nasr 1968)	take the good, reject the harmful
Taha Husayn 1938)	dialogue (Amman 2004, Common Word 2007, Human Fraternity 2019)	reform ourselves
conspiracy view		

Figure 7 · At a glance — muslim views of the West — the names only. The detail is in the sections above.

Chapter 4 · Islamic Ideology and Modern Western Thought: Individuality

Asked in **2015**: 'Give a comparison of Islamic ideology and modern Western thought about present trends of individuality.'

4.1 Individuality and individualism — the terms

- **Individuality** — the distinct personality, dignity and responsibility of each person.
- **Individualism** — a philosophy that makes the **individual the centre and measure of all value**, placing personal freedom and self-interest above family, community and religion.

Islam affirms **individuality**; it rejects **extreme individualism**.

4.2 The rise of Western individualism

Stage	Period	Idea
Renaissance humanism	14th–16th c.	Man, not God, at the centre of culture
Reformation	16th c.	The individual's own conscience and reading of scripture
Enlightenment and liberalism	17th–18th c.	Reason and natural rights; John Locke: life, liberty, property
J. S. Mill, *On Liberty*	1859	The 'harm principle': a person may do anything that does not harm others
Existentialism	20th c.	Sartre: 'existence precedes essence' — man creates his own meaning
Consumer and digital individualism	Late 20th–21st c.	Identity through choice, consumption and self-display

4.3 The present trends of individuality in the West

- **(a) Autonomy above all** — 'my body, my life, my choice'.
- **(b) Rights without duties** — claims on society, few obligations to it.
- **(c) Secularism** — religion a private opinion, not a public guide.
- **(d) Moral relativism** — no universal right or wrong; each defines his own values.
- **(e) Weakening of the family** — fewer marriages, more single-person households, the elderly in care homes.
- **(f) Loneliness** — the **United Kingdom** appointed a **Minister for Loneliness** in **2018**; **Japan** did the same in **2021**.
- **(g) Consumerism and self-display** — identity through brands and social media.
- **(h) Redefinition of identity** — gender and family redefined by individual choice.

4.4 The Islamic view of the individual

(1) Dignity of each person

✦ QURAN

﴿وَلَقَدْ كَرَّمْنَا بَنِي آدَمَ وَحَمَلْنَاهُمْ فِي الْبَرِّ وَالْبَحْرِ وَرَزَقْنَاهُمْ مِنَ الطَّيِّبَاتِ وَفَضَّلْنَاهُمْ عَلَى كَثِيرٍ مِمَّنْ خَلَقْنَا تَفْضِيلًا﴾

"And We have certainly honored the children of Adam and carried them on the land and sea and provided for them of the good things and preferred them over much of what We have created, with [definite] preference."

(Al-Isra, Quran)

→ 'We have honoured the children of Adam.'

(2) Individual responsibility

✦ QURAN

﴿كُلُّ نَفْسٍ بِمَا كَسَبَتْ رَهِينٌ﴾

"Every soul, for what it has earned, will be retained." (Al-Muddaththir, Quran)

→ 'Every soul is held in pledge for what it has earned.'

✦ QURAN

﴿... وَلَا تَزِرُ وَازِرَةٌ وِزْرَ أُخْرَىٰ ...﴾

"No bearer of burdens shall bear the burden of another." (Al-An'am, Quran)

→ 'No bearer of burdens shall bear the burden of another.'

✦ QURAN

﴿وَكُلُّهُمْ آتِيهِ يَوْمَ الْقِيَمَةِ فَرْدًا﴾

"And all of them are coming to Him on the Day of Resurrection alone." (Maryam, Quran)

→ 'Every one of them will come to Him on the Day of Resurrection **alone**.'

(3) The individual as a trustee, not an owner

Life, body, wealth and time are **trusts (amanah)** from Allah. A person may not destroy himself:

✦ QURAN

﴿... لَا تَأْكُلُوا أَمْوَالَكُمْ بَيْنَكُمْ بِالْبَاطِلِ إِلَّا أَنْ تَكُونَ تِجَارَةً عَنْ تَرَاضٍ مِّنْكُمْ ...﴾

"Do not consume one another's wealth unjustly, but only in lawful trade by mutual consent." (An-Nisa, Quran)

→ 'Do not kill yourselves; Allah is ever Merciful to you' — even the body is not one's absolute property.

(4) Freedom within limits

Free will and choice (Al-Kahf 29: 'whoever wills, let him believe...'), but within the **limits of Allah** (hudud Allah) and without harming others.

(5) The individual within the community

✦ HADITH

يَدُ اللَّهِ مَعَ الْجَمَاعَةِ

"The hand of Allah is with the community." (Al-Tirmidhi)

→ The individual flourishes **within** the jama'ah.

✦ HADITH

مَثَلُ الْمُؤْمِنِينَ فِي تَوَادُّهِمْ وَتَرَاحُمِهِمْ وَتَعَاطُفِهِمْ مَثَلُ الْجَسَدِ، إِذَا اشْتَكَى مِنْهُ عُضْوٌ تَدَاعَى لَهُ سَائِرُ الْجَسَدِ بِالسَّهَرِ وَالْحُمَّى

"The believers, in their love, mercy and kindness to one another, are like one body: when one limb suffers, the whole body responds with sleeplessness and fever." (Muslim)

→ **One body**, not separate atoms.

(6) Rights joined with duties

Every right of one person is the duty of another — parents and children, husband and wife, ruler and ruled.

(7) Worship that joins the individual to the group

Congregational prayer, Zakat, the fast of Ramadan together, Hajj — each develops the individual **through** the community.

4.5 Iqbal: Khudi and Bekhudi

✦ SCHOLARLY VIEW

Allama Muhammad Iqbal · Asrar-e-Khudi (1915) and Rumuz-e-Bekhudi (1918)

In *Asrar-e-Khudi* (The Secrets of the Self), Iqbal taught that each individual must develop his **khudi** — selfhood — through faith, love and action. In *Rumuz-e-Bekhudi* (The Mysteries of Selflessness), he taught that the self reaches its fulfilment only **within the Millat** — the community bound by Tawhid and the Prophet ﷺ.

→ The **Islamic balance**: strong individuals, united community.

'Fard qaim rabt-e-millat se hai, tanha kuch nahin / Mauj hai darya mein aur bairun-e-darya kuch nahin' — the individual lives through his bond with the nation; alone he is nothing; the wave exists in the river, outside it is nothing.

4.6 The comparison

Point	Modern Western thought	Islamic ideology
-------	------------------------	------------------

Point	Modern Western thought	Islamic ideology
Centre of value	The individual self	Allah; the individual as His servant and vicegerent
Source of values	Personal choice, reason, majority	Revelation, confirmed by reason and fitrah
Freedom	Maximum, limited only by harm to others	Real, but within the limits of Allah and the good of society
Ownership of self	'My body, my choice'	Body and life are a trust (amanah)
Rights and duties	Rights emphasised	Rights and duties together
Family	A private choice among lifestyles	A sacred institution and a duty
Community	Voluntary association	The Ummah — 'one body'
Accountability	To law and conscience	To law, conscience and Allah in the Hereafter
Result	Freedom and creativity; but loneliness, family decline, relativism	Dignity with belonging; responsibility with freedom

4.7 What Islam appreciates in Western individuality

Respect for personal dignity, freedom of conscience, rule of law, protection of privacy and encouragement of personal initiative — all of which Islam also teaches (Al-Isra 70; Al-Baqarah 256; An-Nur 27).

4.7a The consequences of extreme individualism — what the evidence shows

Area	Consequence
Family	Fewer and later marriages; high divorce; many children raised by one parent
Old age	The elderly alone or in care homes; 'loneliness epidemic' declared by the US Surgeon General (2023)
Mental health	Rising anxiety and depression among the young, linked with social media comparison
Community	Decline of neighbourhood and voluntary ties ('Bowling Alone', Robert Putnam, 2000)
Morality	Relativism — no shared standards of right and wrong
Economy	Consumer debt; identity built on possessions

The Quran describes the man who makes his desire his god:

✦ QURAN

﴿أَفَرَأَيْتَ مَنِ اتَّخَذَ إِلَهَهُ هَوَاهُ وَأَضَلَّهُ اللَّهُ عَلَىٰ عِلْمٍ وَخَتَمَ عَلَىٰ سَمْعِهِ ۖ وَقَلَٰبَهُ ۖ وَجَعَلَ عَلَىٰ بَصَرِهِ ۖ غِشَاوَةً ۖ فَمَنْ يَهْدِيهِ مِنْ بَعْدِ اللَّهِ ۚ أَفَلَا تَذَكَّرُونَ﴾

"Have you seen he who has taken as his god his [own] desire, and Allah has sent him astray due to knowledge and has set a seal upon his hearing and his heart and put over his vision a veil? So who will guide him after Allah? Then will you not be reminded." (Al-Jathiyah, Quran)

→ 'Have you seen the one who takes his own desire as his god?' — the root of extreme individualism.

4.8 The present trend among Muslims

Globalisation and social media are spreading individualism among Muslim youth: less time for family, more self-centred choices, weakening of respect for elders. The Islamic answer is not to crush individuality but to **root it in faith and community** — Iqbal's balance of khudi and bekhudi.

Individuality: Islam and the West — the names only		
Western trends	Islamic view	Balance
Renaissance → Locke → Mill's harm principle (1859) → Sartre → consumer and digital self	dignity	Iqbal — Asrar-e-Khudi (1915), Rumuz-e-Bekhudi (1918)
autonomy	personal responsibility (Al-Muddaththir 38)	the wave and the river
rights without duties	trustee, not owner	
relativism	freedom within limits	
loneliness ministers (UK 2018, Japan 2021)	'one body'	
	rights with duties	

Figure 8 · At a glance — individuality: Islam and the West — the names only. The detail is in the sections above.

Chapter 5 · The Role of Islam in the Modern World

Named in the syllabus — **never asked directly**, likely to come.

5.1 The problems of modern man

Problem	Evidence
Spiritual emptiness and mental illness	Depression affects about 280 million people worldwide (WHO); rising suicide and addiction
Breakdown of the family	High divorce rates; loneliness of the elderly; children without stable homes
Extreme inequality	Oxfam (2024): the richest 1 percent own more wealth than the bottom 95 percent of humanity
Debt and financial crises	Interest-based crises — 2008 global financial crisis; debt traps of poor countries
Environmental crisis	Climate change, pollution, loss of species; Pakistan's 2022 floods affected about 33 million people
Racism and xenophobia	Hatred of migrants and minorities; Islamophobia
War and weapons	Nuclear arms; wars that kill civilians
Moral relativism	No agreed right or wrong; the market and the majority decide
Technology without ethics	Artificial intelligence, surveillance, misinformation

✦ QURAN

﴿ظَهَرَ الْفَسَادُ فِي الْبَرِّ وَالْبَحْرِ بِمَا كَسَبَتْ أَيْدِي النَّاسِ لِيُذِيقَهُمْ بَعْضَ الَّذِي عَمِلُوا لَعَلَّهُمْ يَرْجِعُونَ﴾

“Corruption has appeared throughout the land and sea by [reason of] what the hands of people have earned so He may let them taste part of [the consequence of] what they have done that perhaps they will return [to righteousness].” (Ar-Rum, Quran)

→ ‘Corruption has appeared on land and sea because of what the hands of people have earned’ — the Quran’s diagnosis of the modern crisis.

✦ QURAN

﴿وَمَنْ أَعْرَضَ عَنْ ذِكْرِي فَإِنَّ لَهُ مَعِيشَةً ضَنْكًا وَنَحْشُرُهُ يَوْمَ الْقِيَمَةِ أَعْمَى﴾

“And whoever turns away from My remembrance - indeed, he will have a depressed life, and We will gather him on the Day of Resurrection blind.” (Taha, Quran)

→ ‘Whoever turns away from My remembrance — for him is a life of hardship.’

5.2 Islam's answers

(1) Meaning and peace — the spiritual answer

✦ QURAN

﴿الَّذِينَ ءَامَنُوا وَتَطْمَئِنُّ قُلُوبُهُمْ بِذِكْرِ اللَّهِ أَلَا بِذِكْرِ اللَّهِ تَطْمَئِنُّ الْقُلُوبُ﴾

"Those who have believed and whose hearts are assured by the remembrance of Allah. Unquestionably, by the remembrance of Allah hearts are assured." (Ar-Ra'd, Quran)

→ 'In the remembrance of Allah hearts find rest.'

Tawhid gives life a purpose (Adh-Dhariyat 56) and a moral compass; prayer, fasting and dhikr heal the restless soul.

(2) A stable family

Marriage as Sunnah, love and mercy (Ar-Rum 21), rights of spouses, parents and children (Topic 4).

(3) Economic justice

- **Zakat** — a guaranteed share of the poor in the wealth of the rich (At-Tawbah 60).
- **Prohibition of riba** — finance tied to real trade and shared risk.

✦ QURAN

﴿... وَأَحَلَّ اللَّهُ الْبَيْعَ وَحَرَّمَ الرِّبَا ...﴾

"Allah has permitted trade and forbidden riba (interest)." (Al-Baqarah, Quran)

→ 'Allah has permitted trade and forbidden riba.'

- **Circulation of wealth** — Al-Hashr 7; inheritance spreads wealth over generations.
- **Islamic finance** today manages over **3 trillion dollars** of assets worldwide (IFSB) — a working alternative.

(4) Care of the environment

✦ QURAN

﴿وَالسَّمَاءَ رَفَعَهَا وَوَضَعَ الْمِيزَانَ ﴿١﴾ أَلَّا تَطْغَوْا فِي الْمِيزَانِ ﴿٢﴾ وَأَقِيمُوا الْوَزْنَ بِالْقِسْطِ وَلَا تُخْسِرُوا الْمِيزَانَ﴾

"And the heaven He raised and imposed the balance. That you not transgress within the balance. And establish weight in justice and do not make deficient the balance." (Ar-Rahman, Quran)

→ He set up **the balance (mizan)**: do not transgress the balance; weigh with justice and do not fall short.

✦ QURAN

﴿... وَكُلُوا وَاشْرَبُوا وَلَا تُسْرِفُوا إِنَّهُ لَا يُحِبُّ الْمُسْرِفِينَ﴾

"And eat and drink, but do not be excessive; indeed, He does not like those who are excessive." (Al-A'raf, Quran)

→ 'Eat and drink, but do not waste.'

✦ HADITH

إِنْ قَامَتِ السَّاعَةُ وَفِي يَدِ أَحَدِكُمْ فَسِيلَةٌ، فَإِنْ اسْتَطَاعَ أَنْ لَا يَقُومَ حَتَّى يَغْرِسَهَا فَلْيَغْرِسْهَا

"If the Hour comes while one of you has a sapling in his hand, let him plant it if he can." (Musnad Ahmad)

→ **Planting** as worship — until the last moment.

Man is the **khalifah**, a trustee of the earth, not its owner.

(5) Equality against racism

Al-Hujurat 13 and the Farewell Sermon — 'no Arab over a non-Arab, no white over black'.

(6) Peace and the ethics of war

No killing of civilians; 'incline to peace' (Al-Anfal 61) — Topic 3.

(7) Moral absolutes with flexibility

Fixed principles (justice, truth, chastity) with **ijtihad** for new situations — the answer to relativism.

(8) Knowledge with ethics

Science as worship and trust — the answer to technology without conscience (AI, weapons).

5.2a Islam and the modern ideologies

Ideology	Its claim	The Islamic answer
Capitalism	Private property and free markets bring prosperity	Accepts property and markets, but adds Zakat, bans riba, hoarding and monopoly, and ties wealth to duty (Al-Hashr 7)
Socialism / Communism	State ownership ends exploitation	Rejects abolition of property and religion; ends exploitation by justice, Zakat and inheritance instead
Secularism	Religion is private; the state is neutral	Religion guides the whole of life, including law and government, while protecting others' freedom (Al-Baqarah 256)
Liberalism	Maximum individual freedom	Freedom with responsibility, within the limits of Allah (Chapter 4)
Nationalism	The nation is the highest loyalty	Love of one's land is natural, but the highest loyalty is to Allah and justice; the Ummah above race (Al-Hujurat 13)
Materialism	Only matter and pleasure are real	The unseen, the soul and the Hereafter give life meaning (Al-Baqarah 3)

✦ SCHOLARLY VIEW

Allama Muhammad Iqbal · Javid Nama; Zarb-e-Kalim

Iqbal criticised both capitalism and communism: the first worships wealth, the second denies God; Islam alone joins social justice with faith.

→ The **third way**.

5.2b Islam's appeal in the modern world — the evidence

- Islam is among the **fastest-growing** religions in the world (Pew Research projections).
- Many Western converts cite **Tawhid, the Quran's rationality, prayer and the family** as their reasons.
- **Islamic finance** proved relatively stable in the 2008 crisis and is now offered by banks in London, Kuala Lumpur and Dubai.
- **Ramadan fasting** and intermittent fasting have drawn medical interest; **halal** has become a global quality market.

5.2c Islam, science and technology today

The Quran never set religion against science: it calls on people to observe (Al-Ghashiyah 17–20: 'do they not look at the camels, how they are created...'), to travel and study (Al-Ankabut 20), and to use reason (the repeated *afala ta'qilun* — 'will you not reason?'). The tension between science and religion was a European experience (the Galileo affair, 1633), not a Muslim one. Today's task is to restore that harmony: **research as worship**, ethics in technology, and Muslim contributions to medicine, climate science and artificial intelligence.

✦ QURAN

﴿أَفَلَا يَنْظُرُونَ إِلَى الْإِبِلِ كَيْفَ خُلِقَتْ ﴿١٧﴾ وَإِلَى السَّمَاءِ كَيْفَ رُفِعَتْ ﴿١٨﴾ وَإِلَى الْجِبَالِ كَيْفَ نُصِبَتْ ﴿١٩﴾ وَإِلَى الْأَرْضِ كَيْفَ سُطِحَتْ ﴿٢٠﴾﴾

"Then do they not look at the camels - how they are created. And at the sky - how it is raised. And at the mountains - how they are erected. And at the earth - how it is spread out." (Al-Ghashiyah, Quran)

→ 'Do they not look at the camels, how they are created; at the sky, how it is raised; at the mountains, how they are set; at the earth, how it is spread?'

5.3 The Muslim world's role — the middle nation

✦ QURAN

﴿وَكَذَلِكَ جَعَلْنَاكُمْ أُمَّةً وَسَطًا لِتَكُونُوا شُهَدَاءَ عَلَى النَّاسِ وَيَكُونَ الرَّسُولُ عَلَيْكُمْ شَهِيدًا...﴾

"And thus We have made you a middle (just) nation, that you may be witnesses over mankind and the Messenger a witness over you." (Al-Baqarah, Quran)

→ 'We have made you a middle nation, so that you may be witnesses over mankind.'

✦ QURAN

﴿كُنْتُمْ خَيْرَ أُمَّةٍ أُخْرِجَتْ لِلنَّاسِ تَأْمُرُونَ بِالْمَعْرُوفِ وَتَنْهَوْنَ عَنِ الْمُنْكَرِ وَتُؤْمِنُونَ بِاللَّهِ...﴾

"You are the best nation brought forth for mankind: you enjoin what is right, forbid what is wrong, and believe in Allah." (Aal-e-Imran, Quran)

→ 'You are the best nation brought forth for mankind: you enjoin right, forbid wrong and believe in Allah.'

The role of Islam will be seen in the world only when Muslims **show it in practice** — just governance, honest economies, strong families, knowledge and service to humanity.

✦ SCHOLARLY VIEW

Allama Muhammad Iqbal · The Reconstruction of Religious Thought in Islam, Lecture VI

Iqbal wrote that humanity today needs three things: a spiritual interpretation of the universe, the spiritual emancipation of the individual, and basic principles of a universal import directing the evolution of human society on a spiritual basis — and that Islam offers them.

→ The **three needs** Islam meets.

✦ SCHOLARLY VIEW

George Bernard Shaw · The Genuine Islam (1936)

Shaw predicted that the faith of Muhammad would be acceptable to the Europe of tomorrow, and that a man like him would solve the problems of the modern world.

→ A Western **prediction**.

The role of Islam in the modern world — the names only		
Problems	Islam's answers	Role
emptiness	remembrance and meaning (Ar-Ra'd 28)	middle nation
family breakdown	family	best nation
inequality (Oxfam 1%)	Zakat and no riba	show it in practice
debt	mizan and no waste	Iqbal's three needs
environment (2022 floods)	equality	
racism	peace	
war	fixed morals + ijtiḥad	
relativism	knowledge with ethics	
AI without ethics

Chapter 6 · The Muslim Ummah: Concept, Structure and Revival

Asked in **2015**: 'Explain the concept and structure of the Muslim Ummah and give suggestions for its revival.'

6.1 The concept of the Ummah

(1) The word

Ummah (أُمَّة) comes from **umm** — mother, origin, purpose. An ummah is a community bound together by a **common purpose and faith**, not by race, language or territory.

(2) One Ummah under one Lord

✦ QURAN

﴿إِنَّ هَذِهِ أُمَّتُكُمْ أُمَّةً وَاحِدَةً وَأَنَا رَبُّكُمْ فَاعْبُدُونِ﴾

"Indeed this, your religion, is one religion, and I am your Lord, so worship Me." (Al-Anbiya, Quran)

→ 'Indeed, this Ummah of yours is one Ummah, and I am your Lord, so worship Me.'

✦ QURAN

﴿وَإِنَّ هَذِهِ أُمَّتُكُمْ أُمَّةً وَاحِدَةً وَأَنَا رَبُّكُمْ فَاتَّقُونِ﴾

"And indeed this, your religion, is one religion, and I am your Lord, so fear Me." (Al-Mu'minun, Quran)

→ This Ummah of yours is **one Ummah**, and I am your Lord, so fear Me.

(3) Its qualities

✦ QURAN

﴿وَكَذَلِكَ جَعَلْنَاكُمْ أُمَّةً وَسَطًا لِتَكُونُوا شُهَدَاءَ عَلَى النَّاسِ وَيَكُونَ الرَّسُولُ عَلَيْكُمْ شَهِيدًا...﴾

"And thus We have made you a middle (just) nation, that you may be witnesses over mankind and the Messenger a witness over you." (Al-Baqarah, Quran)

→ A **middle nation** (ummatan wasatan) — balanced, just, a witness over mankind.

✦ QURAN

﴿كُنْتُمْ خَيْرَ أُمَّةٍ أُخْرِجَتْ لِلنَّاسِ تَأْمُرُونَ بِالْمَعْرُوفِ وَتَنْهَوْنَ عَنِ الْمُنْكَرِ وَتُؤْمِنُونَ بِاللَّهِ...﴾

"You are the best nation brought forth for mankind: you enjoin what is right, forbid what is wrong, and believe in Allah." (Aal-e-Imran, Quran)

→ The **best nation** (khayra ummah) raised for mankind — because it enjoins good, forbids evil and believes in Allah.

(4) Brotherhood — the bond

✦ QURAN

﴿إِنَّمَا الْمُؤْمِنُونَ إِخْوَةٌ فَأَصْلَحُوا بَيْنَ أَخَوِيكُمْ وَاتَّقُوا اللَّهَ لَعَلَّكُمْ تُرْحَمُونَ﴾

"The believers are but brothers, so make settlement between your brothers. And fear Allah that you may receive mercy." (Al-Hujurat, Quran)

→ 'The believers are but brothers.'

✦ HADITH

المُسْلِمُ أَخُو الْمُسْلِمِ، لَا يَظْلِمُهُ وَلَا يُسْلِمُهُ

"A Muslim is the brother of a Muslim: he does not wrong him, nor does he abandon him (to his enemy)." (Al-Bukhari and Muslim)

→ Brotherhood means **protection**.

✦ HADITH

مَثَلُ الْمُؤْمِنِينَ فِي تَوَادِّهِمْ وَتَرَاحُمِهِمْ وَتَعَاطُفِهِمْ مَثَلُ الْجَسَدِ، إِذَا اشْتَكَى مِنْهُ عُضْوٌ تَدَاعَى لَهُ سَائِرُ الْجَسَدِ بِالسَّهَرِ وَالْحُمَّى

"The believers are like one body: when one limb suffers, the whole body responds with sleeplessness and fever." (Muslim)

→ The argument for **solidarity** with Palestine, Kashmir and every suffering Muslim people.

(5) The Ummah is not racial nationalism

✦ SCHOLARLY VIEW

Allama Muhammad Iqbal · Bang-e-Dra; Rumuz-e-Bekhudai

Iqbal rejected territorial and racial nationalism as the 'idol' of the age — 'In taza khudaon mein bara sab se watan hai' — and taught that the Muslim nation is bound by faith: 'Apni millat par qiyas aqwam-e-maghrib se na kar / Khas hai tarkib mein qaum-e-Rasool-e-Hashmi' — do not judge your nation by the nations of the West; the nation of the Prophet ﷺ is unique in its composition.

→ The Ummah is **ideological**, not racial.

6.2 The structure of the Ummah

Figure 10 · The structure of the Ummah: a foundation, five pillars and one roof.

(1) The spiritual structure

One God, one Book, one Prophet ﷺ, one qiblah; the five pillars performed together across the world; the **Hajj** as the annual assembly of the Ummah.

(2) The social structure

Brotherhood, mutual rights, mosques as community centres, the family as the basic cell.

(3) The political structure

- **The Khilafah** — from **632** (Abu Bakr) to its abolition in **1924**: the political unity of the Ummah under the Rashidun, Umayyads, Abbasids and Ottomans (with parallel states).
- **Today**: 57 sovereign states, cooperating through the **Organisation of Islamic Cooperation (OIC)** — founded in **Rabat, 1969**, after the arson attack on **Al-Aqsa**; charter 1972; renamed in **2011**; headquarters **Jeddah**. Pakistan hosted the **second OIC summit in Lahore (1974)**.

(4) The economic structure

Zakat and waqf within societies; the **Islamic Development Bank** (1975) and OIC trade arrangements between states.

(5) The cultural and educational structure

Arabic as the language of worship; Hajj; universities like Al-Azhar; **ICESCO** (Islamic World Educational, Scientific and Cultural Organization).

6.3 The history — rise and decline

(1) Rise

From Madinah in 622, the Ummah spread within a century from Spain to Sindh; for about **eight centuries** it led the world in science and culture.

(2) The causes of decline

Cause	Explanation
Disunity and sectarianism	Civil wars; rival dynasties; sectarian hatred
Loss of ijtihad	'Closing of the gate of ijtihad'; rigid taqlid (Iqbal, Lecture VI)
Neglect of science	After the 13th century, science declined in madrasas
Despotism	Hereditary kingship replaced shura; rulers above accountability
Moral decay and luxury	Ibn Khaldun's cycle
External blows	The Mongols (Baghdad, 1258); the Reconquista (1492); colonialism
Economic stagnation	Trade routes shifted to the Atlantic

✦ QURAN

﴿وَأَطِيعُوا اللَّهَ وَرَسُولَهُ وَلَا تَزْعُمُوا فَتَفْشَلُوا وَتَذْهَبَ رِيحُكُمْ وَاصْبِرُوا إِنَّ اللَّهَ مَعَ الصَّابِرِينَ﴾

"And obey Allah and His Messenger, and do not dispute and [thus] lose courage and [then] your strength would depart; and be patient. Indeed, Allah is with the patient." (Al-Anfal, Quran)

→ 'Do not dispute, lest you lose courage and your strength departs' — the Quranic cause of decline.

6.3a The movements for Muslim unity

- **Jamal al-Din al-Afghani** (d. 1897) — called on Muslims everywhere to unite against colonialism and reform through reason (pan-Islamism).
- **The Khilafat Movement** (India, 1919–1924) — led by the **Ali brothers** (Maulana Muhammad Ali Jauhar and Maulana Shaukat Ali) to save the Ottoman Caliphate; it united Indian Muslims politically and trained a generation of leaders.
- **The Motamar al-Alam al-Islami** (1926) and the **Muslim World League** (Rabitat al-Alam al-Islami, 1962, Makkah).
- **The OIC (1969)** — the first inter-state organisation of the Muslim world.

6.3b The OIC — achievements and failures

Achievements	Failures
Common platform of 57 states; voice at the UN	Non-binding decisions; little enforcement
Islamic Development Bank (1975); ICESCO; COMSTECH	Intra-OIC trade still only about a fifth of members' trade
The Islamophobia resolution (UNGA 76/254, 2022)	Unable to stop wars between or within members (Iran–Iraq, Syria, Yemen)

Achievements	Failures
Support for Palestine and Kashmir in resolutions	Little practical effect on occupation in Palestine and Kashmir
Contact group on the Rohingya; the ICJ case (2019)	Rivalries between leading members weaken collective action

6.3c Iqbal's vision of the Ummah

Iqbal hoped that Muslim nations would first become strong and independent, and then form a '**League of Muslim Nations**' — a family of free Muslim states cooperating on the basis of Islam (*Reconstruction*, Lecture VI). The OIC is a partial fulfilment of this vision; its full realisation needs unity, strength and justice within each member.

6.4 Suggestions for the revival of the Ummah

(1) Return to the Quran and Sunnah — with *ijtihad*

✦ QURAN

﴿وَأَعْتَصِمُوا بِحَبْلِ اللَّهِ جَمِيعًا وَلَا تَفَرَّقُوا وَاذْكُرُوا نِعْمَتَ اللَّهِ عَلَيْكُمْ إِذْ كُنْتُمْ أَعْدَاءً فَأَلَّفَ بَيْنَ قُلُوبِكُمْ فَأَصْبَحْتُمْ بِنِعْمَتِهِ إِخْوَانًا...﴾

“And hold firmly to the rope of Allah all together and do not become divided. Remember Allah's favour upon you: you were enemies, and He brought your hearts together, and by His favour you became brothers.” (Aal-e-Imran, Quran)

→ 'Hold fast to the rope of Allah all together and do not be divided.'

✦ SCHOLARLY VIEW

Allama Muhammad Iqbal · The Reconstruction of Religious Thought in Islam, Lecture VI

Iqbal called *ijtihad* 'the principle of movement in the structure of Islam' and urged that it be exercised collectively through a Muslim legislative assembly.

→ Revival through *ijtihad*, not imitation.

(2) Unity above sect and nation

Respect for all schools of law; an end to sectarian hatred (Al-An'am 159); cooperation above national rivalries.

(3) Knowledge, science and technology

✦ QURAN

﴿... يَرْفَعِ اللَّهُ الَّذِينَ آمَنُوا مِنْكُمْ وَالَّذِينَ أُوتُوا الْعِلْمَ دَرَجَاتٍ...﴾

“Allah will raise those who have believed among you and those who were given knowledge, by degrees.” (Al-Mujadilah, Quran)

→ Allah raises **those who believe and those given knowledge** by degrees.

Many Muslim countries spend well under **1 percent** of GDP on research; universities must be rebuilt as centres of discovery.

(4) Good governance and justice

✦ QURAN

﴿وَالَّذِينَ اسْتَجَابُوا لِرَبِّهِمْ وَأَقَامُوا الصَّلَاةَ وَأَمْرُهُمْ شُورَى بَيْنَهُمْ وَمِمَّا رَزَقْنَاهُمْ يُنْفِقُونَ﴾

“And those who have responded to their lord and established prayer and whose affair is [determined by] consultation among themselves, and from what We have provided them, they spend.” (Ash-Shura, Quran)

→ Their affairs are **by consultation among themselves**.

Accountable governments, rule of law, and the end of corruption (Topic 8).

(5) Economic integration

- Increase **intra-OIC trade** (around one-fifth of members' total trade).
- An Islamic common market; the use of Islamic finance; joint investment through the IsDB.

(6) Defence and security cooperation

✦ QURAN

﴿وَأَعِدُّوا لَهُمْ مَا اسْتَطَعْتُمْ مِنْ قُوَّةٍ وَمِنْ رِبَاطِ الْخَيْلِ تُرْهِبُونَ بِهِ ۚ عَدُوَّ اللَّهِ وَعَدُوَّكُمْ...﴾

“Prepare against them whatever you are able of power and of steeds of war, by which you may deter the enemy of Allah and your enemy.” (Al-Anfal, Quran)

→ 'Prepare whatever strength you can.'

Joint defence production and coordination; the **Islamic Military Counter-Terrorism Coalition** (2015) is one step.

(7) A reformed OIC

Binding decisions, a dispute-settlement mechanism, a stronger role on Palestine and Kashmir, and an OIC voice in the UN.

(8) Media and the youth

A strong Muslim media voice in world languages; investment in youth education and skills.

(9) Moral and spiritual renewal

✦ QURAN

﴿...إِنَّ اللَّهَ لَا يُغَيِّرُ مَا بِقَوْمٍ حَتَّى يُغَيِّرُوا مَا بِأَنْفُسِهِمْ...﴾

“Indeed, Allah will not change the condition of a people until they change what is in themselves.” (Ar-Ra'd, Quran)

→ Allah does not change a people **until they change what is in themselves**.

Chapter 7 · The Muslim World: Contemporary Challenges and Solutions

Asked in 2016: 'What are the contemporary challenges of Muslim world? Suggest its solutions in the light of Quran and Sunnah.'

Figure 12 · The eight groups of challenges facing the Muslim world.

7.1 Political challenges

- **Disunity** — rivalries between Muslim states; the OIC unable to act together.
- **Authoritarianism and weak institutions** — little accountability; military and dynastic rule.
- **Occupation and conflict** — **Palestine** (occupation since 1967; the war in Gaza since October 2023, with more than 60,000 Palestinians killed by mid-2025 according to Gaza's health authorities); **Kashmir** (disputed since 1947; special status revoked by India on 5 August 2019); civil wars in **Syria, Yemen, Sudan, Libya**.
- **Foreign intervention** — Iraq (2003), Afghanistan (2001–2021).

7.2 Economic challenges

- **Poverty and inequality** — the OIC holds about a quarter of humanity but a much smaller share of world income.
- **Debt and dependence** — IMF programmes; reliance on oil or remittances.
- **Unemployment** — especially among the young.
- **Weak intra-Muslim trade** — about one-fifth of members' trade.

7.3 Educational and scientific challenges

- Low literacy in several countries (Pakistan about 60 percent); millions of children out of school.

- Low spending on research; few world-ranked universities; dependence on imported technology.
- **Brain drain** — skilled graduates leaving (over 800,000 Pakistanis went abroad for work in 2023 alone, according to the Bureau of Emigration).

7.4 Security challenges

- **Extremism and terrorism** — killing Muslims more than anyone else (Topic 7).
- **Refugees** — millions displaced from Syria, Afghanistan, Sudan and Myanmar (the **Rohingya**, over 700,000 of whom fled in 2017).

7.5 Social challenges

- **Sectarianism** — Sunni–Shia and intra-Sunni conflict (2026 question under Topic 7).
- **Youth bulge** — a young population without jobs or direction.
- **Drug abuse, family breakdown, corruption.**

7.6 Cultural and ideological challenges

- **Western cultural influence** through media and technology; identity crisis among youth.
- **Materialism and consumerism.**
- **The gap between religion and modern education.**

7.7 External challenges

- **Islamophobia** in the West and in India (Chapter 9).
- **Double standards** in international law — Palestine and Kashmir versus Ukraine.

7.8 Environmental challenges

Water scarcity in the Middle East and South Asia; climate change — Pakistan, contributing under 1 percent of global emissions, suffered the **2022 floods** that affected about **33 million** people.

7.8a Pakistan's role in the Muslim world

- **Founding and leading member of the OIC**; host of the **second OIC summit (Lahore, 1974)** and of OIC foreign ministers' meetings.
- **The only Muslim nuclear power** — a responsibility for peace and deterrence (Al-Anfal 60).
- **Tabled the Islamophobia resolution** at the UN on behalf of the OIC (2022).
- **Hosted millions of Afghan refugees** for over four decades — among the largest refugee populations in the world.
- **UN peacekeeping** — one of the largest contributors of troops.
- **Mediator** — Pakistan has tried to mediate between Muslim states.

The Quran's description fits the role Pakistan should play:

✦ QURAN

﴿وَإِنْ طَائِفَتَانِ مِنَ الْمُؤْمِنِينَ اقْتَتَلُوا فَأَصْلَحُوا بَيْنَهُمَا ...﴾

“And if two groups of the believers fight, then make peace between them.” (Al-Hujurat, Quran)

→ If two groups of believers fight, **make peace between them** — and act justly.

7.8b Case note — Palestine

- **1917** — the **Balfour Declaration** promised a 'national home for the Jewish people' in Palestine.
- **1948** — creation of Israel; about **700,000** Palestinians expelled or fled (the **Nakba**).
- **1967** — Israel occupied the **West Bank, East Jerusalem and Gaza**; **UNSC Resolution 242** called for withdrawal.
- **1969** — the arson at **Al-Aqsa** led to the founding of the **OIC**.
- **1993** — the **Oslo Accords**; the promised Palestinian state never came.
- **October 2023 onwards** — the war in Gaza; more than **60,000** killed by mid-2025 (Gaza health authorities); the **ICJ** provisional measures (January 2024) and advisory opinion (July 2024).
- **Pakistan's position**: an independent, viable Palestinian state on the pre-1967 borders with **Al-Quds al-Sharif** as its capital; Pakistan does not recognise Israel.

★ QURAN

﴿سُبْحَنَ الَّذِي أَسْرَى بِعَبْدِهِ ۚ لَيْلًا مِّنَ الْمَسْجِدِ الْحَرَامِ إِلَى الْمَسْجِدِ الْأَقْصَا الَّذِي بَارَكْنَا حَوْلَهُ لِنُرِيَهُ مِنَ الْأَيْتَانِ إِنَّهُ هُوَ السَّمِيعُ الْبَصِيرُ﴾

“Exalted is He who took His Servant by night from al-Masjid al-Haram to al-Masjid al-Aqsa, whose surroundings We have blessed, to show him of Our signs. Indeed, He is the Hearing, the Seeing.” (**Al-Isra, Quran**)

→ Glory be to Him who took His servant by night from the Sacred Mosque to **Al-Masjid al-Aqsa**, whose surroundings We have blessed — the religious bond of every Muslim with Al-Aqsa.

✦ QURAN

﴿... إِنَّ اللَّهَ لَا يُغَيِّرُ مَا بِقَوْمٍ حَتَّى يُغَيِّرُوا مَا بِأَنْفُسِهِمْ...﴾

“Indeed, Allah will not change the condition of a people until they change what is in themselves.” (Ar-Ra'd, Quran)

→ Allah does not change the condition of a people **until they change what is in themselves** — every solution begins with self-reform.

✦ HADITH

الْمُؤْمِنُ لِلْمُؤْمِنِ كَالْبَيْتِ إِشْدُّ بَعْضُهُ بَعْضًا

“The believer to the believer is like a building whose parts support one another.” (Al-Bukhari and Muslim)

→ Solidarity as **structure**, not sentiment.

Chapter 8 · Co-existence in a Multi-faith Society

Asked in 2021: 'Comment on the teachings of Islam regarding co-existence in a multi-faith society.'

8.1 The meaning

Co-existence — **ta'ayush** (تَعَايُش) — means people of different faiths living together in **peace, justice and mutual respect**, each free to practise his religion, cooperating in the common good. It does **not** mean mixing religions (syncretism) or giving up one's beliefs.

8.2 The Quranic principles of co-existence

(1) Diversity is Allah's will

✦ QURAN

﴿وَأَنْزَلْنَا إِلَيْكَ الْكِتَابَ بِالْحَقِّ مُصَدِّقًا لِمَا بَيْنَ يَدَيْهِ مِنَ الْكِتَابِ وَمُهَيِّمًا عَلَيْهِ...﴾

"And We have revealed to you the Book in truth, confirming the Scripture that came before it and as a criterion (muhaymin) over it." (Al-Ma'idah, Quran)

→ Had Allah willed, He would have made you **one community**; but He tests you in what He has given you — so **compete in good deeds**.

✦ QURAN

﴿وَلَوْ شَاءَ رَبُّكَ لَأَمَنَّ مِنَ فِي الْأَرْضِ كُلَّهُمْ جَمِيعًا أَفَأَنْتَ تُكْرِهُ النَّاسَ حَتَّى يَكُونُوا مُؤْمِنِينَ﴾

"And had your Lord willed, those on earth would have believed - all of them entirely. Then, [O Muhammad], would you compel the people in order that they become believers." (Yunus, Quran)

→ Had your Lord willed, all on earth would have believed; **would you then compel people until they become believers?**

(2) No compulsion

✦ QURAN

﴿لَا إِكْرَاهَ فِي الدِّينِ قَدْ تَبَيَّنَ الرُّشْدُ مِنَ الْغَيِّ...﴾

"There is no compulsion in religion; the right course has become clear from the wrong." (Al-Baqarah, Quran)

→ **No compulsion in religion.**

(3) Freedom of belief with clarity of identity

✦ QURAN

﴿لَكُمْ دِينُكُمْ وَلِيَ دِينِ﴾

"For you is your religion, and for me is my religion." (Al-Kafirun, Quran)

→ 'For you your religion, and for me mine.'

(4) Kindness and justice to peaceful non-Muslims

✦ QURAN

﴿لَا يَنْهٰكُمْ اَللّٰهُ عَنِ الَّذِيْنَ لَمْ يُقَاتِلُوْكُمْ فِى الدِّيْنِ وَلَمْ يُخْرِجُوْكُمْ مِّنْ دِيَارِكُمْ اَنْ تَبَرُّوْهُمْ وَتُقْسِطُوْا اِلَيْهِمْ اِنَّ اَللّٰهَ يُحِبُّ الْمُقْسِطِيْنَ﴾

"Allah does not forbid you from those who do not fight you because of religion and do not expel you from your homes - from being righteous toward them and acting justly toward them. Indeed, Allah loves those who act justly." (Al-Mumtahanah, Quran)

→ Allah does not forbid **kindness and justice** to those who do not fight you or expel you.

(5) Respect for what others hold sacred

✦ QURAN

﴿وَلَا تَسُبُّواْ الَّذِيْنَ يَدْعُوْنَ مِنْ دُوْنِ اَللّٰهِ فَيَسُبُّواْ اَللّٰهَ عَدُوًّا بِغَيْرِ عِلْمٍ...﴾

"Do not insult those they invoke besides Allah, lest they insult Allah in enmity, without knowledge." (Al-An'am, Quran)

→ 'Do not insult those they invoke besides Allah, lest they insult Allah in ignorance.'

(6) Dialogue in the best manner

✦ QURAN

﴿وَلَا تُجَادِلُوْا اَهْلَ الْكِتٰبِ اِلَّا بِالَّتِىْ هِىَ اَحْسَنُ...﴾

"And do not argue with the People of the Scripture except in the way that is best." (Al-Ankabut, Quran)

→ 'Do not argue with the People of the Scripture except in the best way.'

✦ QURAN

﴿قُلْ يٰٓاَهْلَ الْكِتٰبِ تَعَالَوْا اِلٰى كَلِمَةٍ سَوَآءٍ بَيْنَنَا وَبَيْنَكُمْ اَلَّا نَعْبُدَ اِلَّا اَللّٰهَ وَلَا نُشْرِكَ بِهِ شَيْۤا وَلَا يَتَّخِذَ بَعْضُنَا بَعْضًا اَرْبَابًا مِّنْ دُوْنِ اَللّٰهِ...﴾

"Say: O People of the Scripture, come to a word common between us and you: that we worship none but Allah, associate nothing with Him, and that none of us take others as lords besides Allah." (Aal-e-Imran, Quran)

→ 'Come to a word common between us and you.'

(7) Protection of all places of worship

✦ QURAN

﴿... وَلَوْلَا دَفْعُ اللَّهِ النَّاسَ بَعْضَهُمْ بِبَعْضٍ لَهْدِمَتْ صُومُعُ وَبَيْعُ وَصَلَوْتُ وَمَسْجِدُ يُذَكِّرُ فِيهَا اسْمُ اللَّهِ كَثِيرًا...﴾

"Were it not that Allah checks some people by means of others, monasteries, churches, synagogues and mosques — in which Allah's name is much mentioned — would have been demolished." (Al-Hajj, Quran)

→ Were it not for Allah's check, **monasteries, churches, synagogues and mosques** would be destroyed.

(8) One human family

✦ QURAN

﴿يَا أَيُّهَا النَّاسُ إِنَّا خَلَقْنَاهُ مِنْ ذَكَرٍ وَأُنْثَى وَجَعَلْنَاهُ شُعُوبًا وَقَبَائِلَ لِتَعَارَفُوا إِنَّ أَكْرَمَكُمْ عِنْدَ اللَّهِ أَتْقَاهُ إِنَّ اللَّهَ عَلِيمٌ خَبِيرٌ﴾

"O mankind, indeed We have created you from male and female and made you peoples and tribes that you may know one another. Indeed, the most noble of you in the sight of Allah is the most righteous of you. Indeed, Allah is Knowing and Acquainted." (Al-Hujurat, Quran)

→ Nations and tribes **to know one another**.

8.3 The Prophetic model

- **The Charter of Madinah (622)** — Muslims, Jews and Arab clans as one political community: 'to the Jews their religion, to the Muslims theirs'.
- **The Najran treaty** — churches, clergy and property of Christians protected; they prayed in the Mosque of Madinah.
- **Personal relations** — he visited a sick Jewish boy, stood for a Jewish funeral ('is it not a soul?'), traded with Jews, and accepted gifts from Christian rulers.
- **Muslims as a minority** — in **Abyssinia**, Muslims lived loyally under a just Christian king — the model for Muslim minorities today.

✦ HADITH

أَلَا مَنْ ظَلَمَ مُعَاهِدًا، أَوْ انْتَقَصَهُ، أَوْ كَلَّفَهُ فَوْقَ طَاقَتِهِ، أَوْ أَخَذَ مِنْهُ شَيْئًا بَغَيْرِ طِيبِ نَفْسٍ، فَإِنَّا حُجِّجُهُ يَوْمَ الْقِيَامَةِ

"Whoever wrongs a non-Muslim under covenant, belittles him, burdens him beyond his capacity or takes anything from him without his consent — I will be his advocate against him on the Day of Resurrection." (Abu Dawud)

✦ HADITH

مَنْ قَتَلَ مُعَاهِدًا لَمْ يَرِحْ رَائِحَةَ الْجَنَّةِ

"Whoever kills a non-Muslim under covenant will not smell the fragrance of Paradise." (Al-Bukhari)

8.4 The historical record

Umar's covenant with Jerusalem (638), Muhammad bin Qasim in Sindh (712), Cordoba, the Ottoman millets, Mughal India — see **Topic 5, Chapter 10**.

8.5 The rights of non-Muslims in an Islamic state

Life, property and honour; freedom of worship and places of worship; their own personal law; justice in court; welfare from the state; representation; protection from abuse.

8.6 Modern declarations

- **The Amman Message** (2004) — against extremism and takfir; recognition of the schools of Islam.
- **A Common Word Between Us and You** (2007) — 138 Muslim scholars to Christian leaders: love of God and love of neighbour.
- **The Marrakesh Declaration** (January 2016) — Muslim scholars affirmed the rights of religious minorities in Muslim lands, citing the Charter of Madinah.
- **The Document on Human Fraternity** (Abu Dhabi, February 2019) — signed by the Grand Imam of Al-Azhar and Pope Francis.

8.7 Co-existence in Pakistan

- **Constitution: Article 20** (freedom to profess religion and manage religious institutions); **Article 22** (safeguards in education); **Article 36** (protection of minorities); reserved seats for minorities.
- **The Quaid's vision** — 11 August 1947: 'You are free to go to your temples ... mosques or any other place of worship.'
- **Minorities** — about **3.6 percent** of the population (Census 2023): Hindus, Christians, Sikhs and others.
- **Kartarpur Corridor** (November 2019) — visa-free access for Sikh pilgrims to Gurdwara Darbar Sahib.
- **Paigham-e-Pakistan** (2018) — scholars of all schools against violence and hatred.

Challenges

Hate speech; mob violence over allegations of blasphemy; complaints of forced conversions; discrimination in jobs and education.

Solutions

Rule of law against mobs; curriculum that teaches the Islamic ethics of co-existence; interfaith councils; equal citizenship in practice; the ulema's leadership against incitement.

TRAP · CO-EXISTENCE IS NOT SYNCRETISM

Say clearly: co-existence means **peace and justice with difference**, not merging beliefs. Surah **Al-Kafirun** both protects others' freedom ('for you your religion') and preserves Muslim identity ('for me mine').

8.8 Muslims as minorities — the principles

About a third of the world's Muslims live as minorities (India alone has about 200 million). The scholars of **fiqh al-aqalliyyat** (the jurisprudence of minorities) draw these principles from the Quran and the Abyssinian model:

- **(a) Loyalty to lawful covenants** — obey the law of the land where it does not require disobeying Allah (Al-Isra 34: fulfil commitments).
- **(b) Preserve identity** — prayer, family, halal food, Islamic education.
- **(c) Contribute to society** — honest work, charity, civic participation; 'the best of people are those most beneficial to people' (Al-Tabarani).
- **(d) Seek rights through law** — courts, elections, peaceful advocacy, not violence.
- **(e) Invite by example** — the Muslims of Abyssinia won the Negus's protection by their truthfulness.

8.9 Tools of interfaith harmony

Tool	Example
Law	Articles 20, 36; laws against hate speech and incitement
Education	Curriculum on the rights of minorities and the Charter of Madinah
Dialogue platforms	Interfaith councils; joint statements of religious leaders
Shared service	Joint relief work in floods and disasters
Religious tourism	Kartarpur; Katas Raj; Hindu and Sikh pilgrims to Pakistan
Media	Programmes that show minorities as fellow citizens

Chapter 9 · Islamophobia: Causes and Remedies

Asked in 2021: 'Islamophobia is a sign of extremism. Give suggestions for its remedy.'

9.1 The meaning

Islamophobia is irrational fear of, prejudice against, or hostility towards Islam and Muslims, leading to discrimination, exclusion and violence. The term was popularised by the **Runnymede Trust** report *Islamophobia: A Challenge for Us All* (1997, United Kingdom).

9.2 Its forms

Form	Examples
Violence	The Christchurch mosque attacks (15 March 2019 , New Zealand) — 51 worshippers killed; attacks on mosques and veiled women
Insult to the sacred	Cartoons of the Prophet ﷺ (Denmark, 2005; later France); public burning of the Quran (Sweden and Denmark, 2023)
Discriminatory laws	Headscarf bans in French schools (2004) and face-veil bans (2010); minaret ban (Switzerland, 2009); India's Citizenship Amendment Act (2019)
Media and political rhetoric	Stereotyping Islam as violent; far-right campaigns against Muslim migrants
Everyday discrimination	In jobs, housing, airports and schools
Mass persecution	The Rohingya of Myanmar (2017)

9.3 The causes

- **(a) Terrorism by a few Muslims** — 9/11 (2001) and later attacks, exploited to blame all Muslims.
- **(b) Media stereotyping** — 'Islam = terror' in news and films.
- **(c) Orientalism and history** — centuries of hostile images since the Crusades (Edward Said).
- **(d) Political exploitation** — far-right and nationalist parties use fear of Muslims for votes.
- **(e) The 'clash of civilizations' thesis** — Samuel Huntington (*Foreign Affairs*, 1993; book 1996) presented Islam as the West's next enemy.
- **(f) Migration and economic fear** — Muslim migrants blamed for unemployment and crime.
- **(g) Ignorance** — little real knowledge of Islam.
- **(h) Muslims' own conduct** — sectarian violence, poor treatment of minorities and failure to present Islam well.

9.4 'Islamophobia is a sign of extremism'

(1) Islamophobia is itself extremism

It is an **extremist ideology** — judging over a billion people by the crimes of a few, calling for their exclusion, and sometimes killing them (Christchurch). The Christchurch attacker's manifesto was steeped in white-supremacist extremism.

(2) It feeds, and is fed by, Muslim extremism

Break it at every point: condemn terror · fair media · education · law against hate · inclusion · Muslim conduct (Fussilat 34)

Figure 15 · The cycle of extremisms: each feeds the other.

Terrorist attacks by extremists produce fear; fear produces discrimination; discrimination produces alienation; alienation is exploited by extremist recruiters — who carry out more attacks. **Both extremisms need each other.**

(3) The Quranic rule — no collective guilt

✦ QURAN

﴿... وَلَا تَزِرُ وَازِرَةٌ وِزْرَ أُخْرَىٰ ...﴾

“No bearer of burdens shall bear the burden of another.” (Al-An’am, Quran)

→ ‘No bearer of burdens shall bear the burden of another.’

✦ QURAN

﴿... وَلَا يَجْرِمَنَّكُمْ شَنَاٰنُ قَوْمٍ عَلَىٰٓ أَلَّا تَعْدِلُوا ۖ أَعْدِلُوا هُوَ أَقْرَبُ لِلتَّقْوَىٰ ۖ﴾

“Do not let the hatred of a people lead you to be unjust. Be just; that is nearer to righteousness.” (Al-Ma’idah, Quran)

→ ‘Do not let the hatred of a people lead you to injustice.’

9.5 The remedies

(1) International action

- **UN General Assembly Resolution 76/254 (15 March 2022)** — declared **15 March** the **International Day to Combat Islamophobia**, on a resolution tabled by **Pakistan on behalf of the OIC**; the date marks the Christchurch attacks.

- **UN General Assembly Resolution 78/264** (March 2024) — 'Measures to combat Islamophobia', calling for a **UN Special Envoy** on Islamophobia.
- **OIC** — an Islamophobia Observatory and diplomatic campaigns.

(2) Legal measures

Laws against hate speech and hate crime; protection of places of worship; international norms against insulting religious symbols.

(3) Education and dialogue

Teaching about Islam in Western schools; interfaith dialogue (A Common Word, Human Fraternity); academic exchange.

(4) Media engagement

Muslim journalists, film-makers and writers presenting the real Islam; fact-checking and challenging stereotypes.

(5) Muslims' own conduct — the most powerful remedy

✦ QURAN

﴿وَلَا تَسْتَوِي الْحَسَنَةُ وَلَا السَّيِّئَةُ ادْفَعْ بِالَّتِي هِيَ أَحْسَنُ فَإِذَا الَّذِي بَيْنَكَ وَبَيْنَهُ عَدَاوَةٌ كَأَنَّهُ وَلِيٌّ حَمِيمٌ﴾

"And not equal are the good deed and the bad. Repel [evil] by that [deed] which is better; and thereupon the one whom between you and him is enmity [will become] as though he was a devoted friend." (Fussilat, Quran)

→ 'Repel evil with what is better'; then the one between whom and you is enmity will become as a devoted friend.'

✦ QURAN

﴿ادْعُ إِلَى سَبِيلِ رَبِّكَ بِالْحُكْمَةِ وَالْمَوْعِظَةِ الْحَسَنَةِ وَجِدِلْهُمْ بِالَّتِي هِيَ أَحْسَنُ...﴾

"Invite to the way of your Lord with wisdom and good instruction, and argue with them in the way that is best." (An-Nahl, Quran)

→ Invite with wisdom and good instruction.

- Condemn terrorism clearly and consistently.
- Protect minorities in Muslim countries (so that the demand for rights abroad is credible).
- Muslims in the West: participate positively in society, as the Muslims of **Abyssinia** did.

(6) Answering insults the Prophetic way

Firm love for the Prophet ﷺ expressed through **lawful, collective and diplomatic** protest, not violence; his own answer to insult was dignity and gentleness (Topic 3).

✦ QURAN

﴿إِنَّا كَفَيْنَاكَ الْمُسْتَهْزِئِينَ﴾

"Indeed, We are sufficient for you against the mockers." (Al-Hijr, Quran)

→ 'We are sufficient for you against the mockers.'

9.6 Islamophobia and the Muslim diaspora — the positive record

Muslims in the West have answered hostility with contribution: Muslim doctors served on the front line of the COVID-19 pandemic; mosques opened food banks; Muslim athletes, writers and public figures changed perceptions; after Christchurch, New Zealand's response of solidarity — the adhan broadcast nationally and women wearing headscarves in sympathy — showed that Islamophobia can be defeated by unity.

✦ HADITH

خَيْرُ النَّاسِ أَنْفَعُهُمْ لِلنَّاسِ

“The best of people are those most beneficial to people.” (Al-Tabarani)

→ **Service** is the most convincing answer to hate.

Chapter 10 · The Two-Nation Theory and the Muslims of India and Kashmir

Asked in 2026: 'In the light of the plight of Indian and Kashmiri Muslims, discuss the justification and demands of the Two-Nation Theory.'

10.1 The Two-Nation Theory — meaning

The **Two-Nation Theory — Du-Qaumi Nazariyah** — holds that the Muslims and Hindus of the subcontinent were **two separate nations**, different in religion, culture, law, history and way of life, and that the Muslims were entitled to a **separate homeland** where they could live according to Islam. It was the ideological basis of **Pakistan**.

10.2 The Islamic basis

✦ QURAN

﴿إِنَّمَا الْمُؤْمِنُونَ إِخْوَةٌ فَأَصْلَحُوا بَيْنَ أَخَوَيْكُمْ وَاتَّقُوا اللَّهَ لَعَلَّكُمْ تُرْحَمُونَ﴾

"The believers are but brothers, so make settlement between your brothers. And fear Allah that you may receive mercy." (Al-Hujurat, Quran)

→ 'The believers are but brothers' — Muslim nationhood rests on faith.

✦ QURAN

﴿إِنَّ هَذِهِ أُمَّتُكُمْ أُمَّةً وَاحِدَةً وَأَنَا رَبُّكُمْ فَاعْبُدُونِ﴾

"Indeed this, your religion, is one religion, and I am your Lord, so worship Me." (Al-Anbiya, Quran)

→ 'This Ummah of yours is one Ummah.'

✦ QURAN

﴿لَكُمْ دِينُكُمْ وَلِيَ دِينِ﴾

"For you is your religion, and for me is my religion." (Al-Kafirun, Quran)

→ 'For you your religion, and for me mine' — clear distinction of identity with mutual respect.

Islam is a complete way of life — law, family, economy, culture — and cannot be confined to private worship in a state run by another civilization's majority.

10.3 The historical development

Figure 17 · The Two-Nation Theory — stated (1867–1947) and confirmed by events (1947–2025).

(1) Early recognition

Al-Biruni (*Kitab al-Hind*, c. 1030) observed that Hindus and Muslims differed in everything — religion, customs and manners — so deeply that they hardly mixed. **Shaykh Ahmad Sirhindi** (d. 1624) resisted Akbar's attempt to merge religions.

(2) Sir Syed Ahmad Khan

After the **Urdu–Hindi controversy** (Benares, 1867), Sir Syed concluded that Hindus and Muslims were **two nations** that could not unite in a common political system, and advised Muslims to protect their separate interests.

(3) The All-India Muslim League (Dhaka, 1906) and separate electorates (1909)

(4) Allama Iqbal — the Allahabad Address (1930)

✦ SCHOLARLY VIEW

Allama Muhammad Iqbal · Presidential Address, All-India Muslim League, Allahabad, 29 December 1930

Iqbal said he would like to see the Punjab, the North-West Frontier Province, Sindh and Baluchistan amalgamated into a single state — a consolidated North-West Indian Muslim state — as the final destiny of the Muslims, at least of North-West India.

→ The **idea of the homeland**.

(5) Quaid-e-Azam — the Lahore Resolution (23 March 1940)

✦ SCHOLARLY VIEW

Quaid-e-Azam Muhammad Ali Jinnah · Presidential Address, Lahore, 22 March 1940

"The Hindus and Muslims belong to two different religious philosophies, social customs, literatures. They neither intermarry nor interdine together and, indeed, they belong to two different civilizations which are based mainly on conflicting ideas and conceptions."

→ The **classic statement** of the theory.

✦ SCHOLARLY VIEW

Quaid-e-Azam Muhammad Ali Jinnah · Speech at Aligarh, 8 March 1944

Jinnah said that Pakistan came into being the day the first Hindu became a Muslim in India, long before Muslim rule was established.

→ Nationhood rests on **faith**, not territory.

10.4 The justification of the theory

- **(a) Religious:** Islam is a complete system; Muslims need a state to live by it.
- **(b) Cultural:** different language (Urdu), dress, food, festivals, law, calendar, heroes.
- **(c) Historical:** a thousand years of separate identity; separate histories of the same events.
- **(d) Political:** under a permanent Hindu majority, Muslims would be a permanent minority — as the **Congress ministries (1937–39)** showed (Muslims' 'Day of Deliverance', 22 December 1939).
- **(e) Economic:** Muslims were behind in education, jobs and trade; a homeland would protect their interests.

10.5 The plight of Indian Muslims — the theory confirmed

India has about **200 million** Muslims (**14.2 percent** in the 2011 census). Its Constitution promises secularism and equality, but the record shows otherwise:

Year	Event
1992	Babri Masjid demolished; the Supreme Court (2019) gave the site for a temple
2002	Gujarat riots — over 1,000 killed, most of them Muslims (official figures)
2006	Sachar Committee Report found Muslims behind other communities in education, jobs and representation
2015 onwards	Lynchings of Muslims over cow-protection allegations
2019	Citizenship Amendment Act — fast-track citizenship for non-Muslim migrants from neighbouring countries only; with the proposed National Register of Citizens, feared to target Muslims
2022	Hijab ban in Karnataka's schools, upheld by the state High Court
2022 onwards	'Bulldozer' demolitions of Muslim homes and shops after protests
2025	Waqf (Amendment) Act — changes to the management of Muslim endowments, opposed by Muslim organisations

Muslims are also under-represented in Parliament and public services, and hate speech against them has become common in politics and media.

10.6 The plight of Kashmiri Muslims

- **1947** — the Hindu ruler acceded to India against the will of the Muslim-majority population; war followed.
- **UN Security Council Resolution 47 (1948)** and later resolutions called for a **free and impartial plebiscite** — never held.
- **1989 onwards** — uprising and heavy military presence; thousands killed, disappearances and human-rights reports (UN OHCHR reports, 2018 and 2019).
- **5 August 2019** — India revoked **Articles 370 and 35-A**, ending the special status of Jammu and Kashmir; a long communications blackout and mass detentions followed.
- **2020** — new **domicile rules** allowed non-Kashmiris to settle and buy land — feared as a change in the region's demography.

✦ QURAN

﴿وَمَا لَكُمْ لَا تُقَاتِلُونَ فِي سَبِيلِ اللَّهِ وَالْمُسْتَضْعَفِينَ مِنَ الرِّجَالِ وَالنِّسَاءِ وَالْوِلْدَانِ...﴾

"What is wrong with you that you do not fight in the cause of Allah and for the oppressed among men, women and children?" (An-Nisa, Quran)

→ What is wrong with you that you do not act **for the oppressed men, women and children?**

✦ QURAN

﴿...وَإِنْ أَسْتَنْصَرُوكُمْ فِي الدِّينِ فَعَلَيْكُمْ النَّصْرُ...﴾

"And if they seek your help in the matter of religion, then it is your duty to help them." (Al-Anfal, Quran)

→ 'If they seek your help in the matter of religion, then it is your duty to help them.'

10.7 The demands of the Two-Nation Theory today

- **(a) Protect Pakistan's ideology** — the Objectives Resolution, Article 2A.
- **(b) Make Pakistan a model Islamic welfare state** — justice, rule of law, prosperity; the best argument for the theory is a successful Pakistan.
- **(c) Protect Pakistan's own minorities** — Article 36 and the Quaid's 11 August 1947 promise — so that the theory stands for **justice**, not majoritarianism.
- **(d) Support the Kashmiris** — politically, diplomatically and morally, through the UN resolutions and the OIC.
- **(e) Raise the rights of Indian Muslims** — through diplomacy, human-rights forums and the OIC, while respecting international law.
- **(f) National unity** — Pakistan's provinces and ethnic groups bound by Islam and equal rights.

10.7a The Two-Nation Theory and the Quaid's speech of 11 August 1947

Some ask whether the Quaid's promise of equal citizenship ('you may belong to any religion or caste or creed — that has nothing to do with the business of the State') contradicts the Two-Nation Theory. It does not: the theory was the basis for **creating** the state; the speech described how the state would **treat its citizens**. Islam itself requires justice to minorities (the Charter of Madinah); a Muslim state that protects non-Muslims fulfils, rather than denies, its Islamic ideology.

10.7b What the leaders said about Pakistan's ideology

- **Quaid, Karachi, 25 January 1948:** Islamic principles are 'as applicable to life today as they were 1,300 years ago'; the Constitution would be based on them.
- **Liaquat Ali Khan, moving the Objectives Resolution (1949):** Pakistan was founded so that Muslims could order their lives according to Islam.
- **Iqbal (1930):** Islam as 'a people-building force' that had worked in India.

10.8 The objections and their answers

- **'The separation of East Pakistan (1971) disproved the theory.'** — No: 1971 was a failure of **governance, justice and democracy**, not of Muslim identity. Bangladesh became a **separate Muslim-majority state**, not part of India.
- **'Indian Muslims were left behind.'** — The theory was never that all Muslims would migrate; it secured a homeland where Muslims were a majority. The plight of those left behind **confirms** the danger the theory foresaw.

Chapter 11 · The Reconstruction of Pakistani Society in the Light of Islamic Teachings

Asked in 2022: 'Explain the Reconstruction of Pakistani Society in the light of Islamic Teachings.'

11.1 The meaning of reconstruction

Reconstruction means rebuilding a society on sound foundations — its individuals, families, institutions and values. Iqbal used the word for the renewal of Muslim thought (*The Reconstruction of Religious Thought in Islam*, 1930).

✦ SCHOLARLY VIEW

Quaid-e-Azam Muhammad Ali Jinnah · Address at Islamia College, Peshawar, 13 January 1948

Jinnah said that Pakistan was not demanded merely to have a piece of land, but to have a laboratory where Islamic principles could be tried out.

→ The **purpose** of Pakistan.

11.2 The constitutional foundation

- **Objectives Resolution (12 March 1949)** — sovereignty belongs to Allah; Muslims to order their lives according to Islam; minorities' rights; now **Article 2A**.
- **Article 2** — Islam the state religion.
- **Article 31** — the state to enable Muslims to live according to Islam; teaching of the Quran; promotion of Islamic values.
- **Article 37 and 38** — social justice and the well-being of the people.
- **Article 227** — no law repugnant to the Quran and Sunnah.
- **Council of Islamic Ideology** (Articles 228–230) — advisory body.
- **Federal Shariat Court** (Article 203C, **1980**) — can strike down laws against Islam.

11.3 The problems to be solved

Corruption (CPI 2024: **135th of 180**); weak rule of law (WJP 2024: **129th of 142**); poverty (about **40 percent**); **26 million** children out of school; sectarianism and extremism; injustice to women and minorities; elite privilege; family breakdown; moral decline.

11.4 Reconstruction — area by area

(1) The individual — tazkiyah and character

✦ QURAN

﴿... إِنَّ اللَّهَ لَا يُغَيِّرُ مَا بِقَوْمٍ حَتَّى يُغَيِّرُوا مَا بِأَنْفُسِهِمْ...﴾

"Indeed, Allah will not change the condition of a people until they change what is in themselves." (**Ar-Ra'd**, Quran)

→ Allah does not change a people **until they change what is in themselves**.

Education that joins knowledge and character; mosques and media that teach honesty, punctuality and public duty (Topic 5).

(2) The family

Easy marriage; end of dowry culture; rights of women and children; care of the elderly (Topic 4); **Article 35**.

(3) Education

✦ QURAN

﴿أَقْرَأْ بِاسْمِ رَبِّكَ الَّذِي خَلَقَ﴾

"Recite in the name of your Lord who created." (Al-Alaq, Quran)

→ 'Read!' — the first command.

- One quality system instead of three separate tracks (elite English schools, government schools, madrasas).
- **Article 25-A** — free and compulsory education for ages 5 to 16.
- Science, technology and Islamic ethics together; madrasa reform with modern subjects.

(4) The economy

✦ QURAN

﴿... وَأَحَلَّ اللَّهُ الْبَيْعَ وَحَرَّمَ الرِّبَا ...﴾

"Allah has permitted trade and forbidden riba (interest)." (Al-Baqarah, Quran)

→ 'Allah has permitted trade and forbidden riba.'

✦ QURAN

﴿... كَيْ لَا يَكُونَ دُولَةً بَيْنَ الْأَغْنِيَاءِ مِنْكُمْ ...﴾

"... so that it does not circulate only among the rich among you." (Al-Hashr, Quran)

→ So that wealth does **not circulate only among the rich**.

- **A riba-free economy** — the **Federal Shariat Court's judgment of 28 April 2022** ordered its elimination; the **26th Amendment (2024)** set **1 January 2028** as the target.
- **Zakat and Ushr** — transparent collection and distribution; social protection through programmes such as the **Benazir Income Support Programme**.
- Fair taxation; an end to elite privilege; support for small business and agriculture.

(5) Justice and rule of law

✦ QURAN

﴿يَا أَيُّهَا الَّذِينَ آمَنُوا كُونُوا قَوَّامِينَ بِالْقِسْطِ شُهَدَاءَ لِلَّهِ وَلَوْ عَلَىٰ أَنْفُسِكُمْ أَوِ الْوَالِدِينَ وَالْأَقْرَبِينَ ...﴾

"O you who believe, stand firmly for justice, as witnesses for Allah, even if it be against yourselves, your parents or your relatives." (An-Nisa, Quran)

→ **Stand firm for justice**, even against yourselves.

Quick and cheap justice; independence of courts; one law for all — 'if Fatimah stole...'.
 (6) Governance and accountability

★ QURAN

﴿إِنَّ اللَّهَ يَأْمُرُكُمْ أَنْ تُؤَدُّوا الْأَمَانَاتِ إِلَىٰ أَهْلِهَا وَإِذَا حَكَمْتُمْ بَيْنَ النَّاسِ أَنْ تَحْكُمُوا بِالْعَدْلِ إِنَّ اللَّهَ نِعِمَّا يَعِظُكُمْ بِهِ إِنَّ اللَّهَ كَانَ سَمِيعًا بَصِيرًا﴾

"Indeed, Allah commands you to render trusts to whom they are due and when you judge between people to judge with justice. Excellent is that which Allah instructs you. Indeed, Allah is ever Hearing and Seeing." (An-Nisa, Quran)

→ Render **trusts** to whom they are due.

Merit in appointments; transparency; accountability of rulers as in the Caliphate of Umar (RA) (Topic 8).

(7) Social harmony

★ QURAN

﴿وَأَعْتَصِمُوا بِحَبْلِ اللَّهِ جَمِيعًا وَلَا تَفَرَّقُوا وَاذْكُرُوا نِعْمَتَ اللَّهِ عَلَيْكُمْ إِذْ كُنْتُمْ أَعْدَاءً فَأَلَّفَ بَيْنَ قُلُوبِكُمْ فَأَصْبَحْتُمْ بِنِعْمَتِهِ إِخْوَانًا...﴾

"And hold firmly to the rope of Allah all together and do not become divided. Remember Allah's favour upon you: you were enemies, and He brought your hearts together, and by His favour you became brothers." (Aal-e-Imran, Quran)

→ 'Hold fast to the rope of Allah together and do not be divided.'

End sectarian hate speech (Paigham-e-Pakistan, 2018); respect for all schools; equal citizenship for minorities (Article 36).

(8) Women and youth

Education, safety and economic participation of women (Article 34); skills and jobs for the young — two-thirds of Pakistanis are under 30.

(9) Media and culture

Media that promotes Islamic and national values, Urdu and regional languages, and truthfulness (Al-Hujurat 6).

(10) The environment

Care of the earth as a trust (Ar-Rahman 7–9); water conservation; climate adaptation after the 2022 floods.

11.4a The roles of the key actors

- **The state:** make laws according to Articles 31 and 227; ensure justice, welfare and security; be a model of honesty.
- **The ulema:** preach unity instead of sectarianism; explain Islam's social teachings; support reform.
- **Teachers and universities:** join knowledge with character; research for national problems.
- **Media:** truthful, responsible, family-friendly content; counter fake news.

- **Civil society and philanthropy:** Pakistan is among the most charitable nations — the **Edhi Foundation**, **Shaukat Khanum Memorial Cancer Hospital**, **Akhuwat** (interest-free microfinance) and **Saylani Welfare Trust** show the Islamic spirit of service in action.
- **The family:** the first school of values.

✦ HADITH

كُلُّكُمْ رَاعٍ وَكُلُّكُمْ مَسْئُولٌ عَنْ رَعِيَّتِهِ

“Each of you is a shepherd, and each of you is responsible for his flock.” (Al-Bukhari and Muslim)

→ Reconstruction is **everyone's duty**.

11.4b A staged roadmap

Stage	Priorities
Immediate (1–2 years)	Rule of law against mobs and hate speech; quick justice in small cases; transparency in Zakat and public spending; digital-media ethics
Medium term (3–5 years)	One quality education system; madrasa reform; riba-free banking transition (target 2028); social protection; women's safety and work
Long term (10+ years)	Research-based economy; accountable institutions; a society of trust and character — the 'laboratory' the Quaid imagined

11.5 The model — the society of Madinah

The Prophet ﷺ built the society of Madinah by: **faith and tazkiyah** (the mosque), **brotherhood** (Mu'akhat), **a written constitution** (the Charter), **economic justice** (Zakat, fair markets), **education** (Suffah), **rule of law** and **protection of minorities**. These are the blueprint for Pakistan's reconstruction.

Madinah (622–632)	Principle	Pakistan today
Mosque of the Prophet ﷺ	Faith and character	Mosques and schools that build character
Mu'akhat	Brotherhood; integration of refugees	Social solidarity; welfare
Charter of Madinah	Constitution; pluralism	1973 Constitution; Articles 2A, 20, 36
Suffah	Education for all	Article 25-A; one quality system
Market of Madinah	Honest trade; no riba	Riba-free economy by 2028
'If Fatimah stole'	Rule of law	Independent, fast courts

Part Two — Contemporary Challenges, Narratives and Hot Debates

12.1 The clash of civilizations or the dialogue of civilizations?

Samuel Huntington argued (*Foreign Affairs*, 1993; *The Clash of Civilizations and the Remaking of World Order*, 1996) that after the Cold War, conflicts would be between civilizations, and that Islam's borders were 'bloody'. The answer came from dialogue: the UN declared **2001 the Year of Dialogue among Civilizations** (on a proposal of Iran's President Khatami), and the **Alliance of Civilizations** was launched in 2005. The Quranic answer: nations were made 'to know one another' (Al-Hujurat 13), and Muslims are told to argue 'in the best way' (Al-Ankabut 46). Civilizations **borrow** more than they clash — as Chapter 1 shows.

12.2 Palestine and Gaza

Palestine has been under occupation since **1967**; the war in Gaza since **October 2023** has killed more than **60,000** Palestinians (Gaza health authorities, mid-2025), most of them women and children, and caused famine conditions. The **International Court of Justice** ordered provisional measures in *South Africa v. Israel* (**January 2024**) and, in an advisory opinion (**July 2024**), declared Israel's continued occupation of the Palestinian territories **unlawful**. The OIC and Arab League have called for a ceasefire and a two-state solution on the 1967 borders with Al-Quds al-Sharif as the capital of Palestine. The test for the world is **double standards**; the test for Muslims is **unity and effective diplomacy**.

12.3 Kashmir, the Rohingya and Muslims in India

State them factually: **UNSC Resolution 47 (1948)**; **5 August 2019**; OHCHR reports (2018, 2019); the Rohingya exodus of **2017** (over 700,000 to Bangladesh) and the ICJ case *The Gambia v. Myanmar* (2019, brought on behalf of the OIC); in India — the CAA (2019), the Babri verdict (2019), the Waqf (Amendment) Act (2025). The Muslim response: diplomacy, law, human-rights forums, humanitarian aid — and the example of justice to minorities in Muslim countries.

12.4 The OIC — potential and weakness

Potential: 57 states, about a quarter of humanity, energy resources, strategic location, the IsDB. **Weakness:** non-binding decisions, rivalries among members, no collective security or economic integration, silence or division on key crises. **Reform:** binding mechanisms, economic integration, a common media and science strategy, a stronger voice at the UN.

12.5 Western cultural influence, brain drain and technological dependence

Western platforms shape the values of Muslim youth; Muslim countries import most of their technology; skilled graduates emigrate (over **800,000** Pakistanis went abroad for work in 2023). The answer: invest in universities and research, create quality content in local languages, and offer the young a future at home.

12.6 Artificial intelligence and the Muslim world

AI will decide economic and military power in this century. The Muslim world must **produce**, not only consume, it — and bring Islamic ethics (truthfulness, privacy, human dignity, accountability) to its governance.

DEBATE · IS THE WEST THE ENEMY?

No single answer fits: Western states have committed injustices (colonialism, wars, double standards), and Western societies also produced science, human rights, and many who defend Muslims (for example, protests for Gaza across Western cities). The Quranic approach is **justice to all and dialogue with all** (Al-Ma'idah 8; Al-Mumtahanah 8), with firm opposition to injustice by anyone.

Part Three — The Examiner's Record and Five Likely Questions
